**Alien Hunter: Underworld** Whitley Strieber

2014-08-05 From the New York Times-

bestselling author, a government agent hunts alien terrorists who are abducting humans in an attempt to take over earth. The aliens have seen many worlds, but they know that Earth in particular is a jewel. They lust for its soaring mountains, its shining seas, its gorgeous forests, and majestic deserts. They don't want us. Flynn Carroll knows that the aliens are a race of brilliance and extraordinary cruelty. And he knows that they have found a way to eliminate humanity: capture the mind of the president of the United States, the most powerful man in the world. Carroll is determined to stop the aliens from achieving their goal, but the president remains ignorant of the danger that he and the rest of the planet are in. With doomsday coming ever closer, Carroll might be the only hope for the survival of the human race. Praise for Alien Hunter "A fast-paced, action-packed thriller." —David Morrell, New York Times-bestselling author of *Inspector of the Dead* "Whitley Strieber at his best—part Stephen King, part Dean Koontz, but always Whitley." —Douglas Preston, New York Times-bestselling author of *The Kraken Project* "Excellent storytelling will keep readers guessing until the very end." —RT Book Reviews "Engages you immediately and then surprises you on every page." —Larry Bond, New York Times-bestselling author of *Lash-Up* "A compelling and must-read cops-and-aliens detective series." —William J. Birnes, coauthor of the New York Times bestseller, *The Day After Roswell*

*Alien Hunters* Daniel Arenson 2014-12-20 Got trouble with aliens? Call the Alien Hunters. A group of scruffy mercenaries, the Alien Hunters travel the galaxy in their starship, a mechanical dragon that spits out plasma like dragonfire. If an alien has invaded your space station, asteroid mine, or lunar colony, the Alien Hunters will remove the pest for you. Low rates. No questions

asked. Raphael "Riff" Starfire, a guitarist-turned-gunslinger, and Nova, a warrior-princess with an electric whip and a bad attitude, lead the Alien Hunters. They're the solar system's best pest controllers. Yet now they face a threat all their guns and grit might be unable to stop. The skelkrins, a race of apex predators from deep space, are swarming across the galaxy. Planets burn in their wake. As the skelkrins draw closer to Earth, will Riff and Nova be the ones hunting aliens . . . or will aliens hunt them?

Alien Hunter, Star Trooper David Scholes 2012

A humanoid alien designated an Alien Hunter Class 5 and formerly a Star Trooper, Gladiator, and Mercenary is "dumped" on Earth by the Universal forces of nature. The so called "Hand of God." With his Earth liaison officer Chicago detective Chris McInnes in tow, the displaced visitor starts a one alien war against corruption, crime, and terrorism on Earth. Both human and alien. Based on the author's monthly Alien Hunter series published by the Golden Visions science fiction magazine throughout 2011.

*Confessions of an Alien Hunter* Seth Shostak 2009-03-17 Aliens are big in America. Whether they've arrived via rocket, flying saucer, or plain old teleportation, they've been invading, infiltrating, or inspiring us for decades, and they've fascinated moviegoers and television

watchers for more than fifty years. About half of us believe that aliens really exist, and millions are convinced they've visited Earth. For twenty-five years, SETI has been looking for the proof, and as the program's senior astronomer, Seth Shostak explains in this engrossing book, it's entirely possible that before long conclusive evidence will be found. His informative, entertaining report offers an insider's view of what we might realistically expect to discover light-years away among the stars. Neither humanoids nor monsters, says Shostak; in fact, biological intelligence is probably just a precursor to machine beings, enormously advanced artificial sentients whose capabilities and accomplishments may have developed over billions of years and far exceed our own. As he explores what, if anything, they would tell us and what their existence would portend for humankind and the cosmos, he introduces a colorful cast of characters and provides a vivid, state-of-the-art account of the past, present, and future of our search for extraterrestrial intelligence.

*Parliamentary Debates (Hansard)*. Great Britain. Parliament. House of Commons 1919 Contains the 4th session of the 28th Parliament through the session of the Parliament.

**Alien Hunters** Daniel Arenson 2015-09-05 Got trouble with aliens? Call the Alien Hunters. This bundle includes all three novels in this fast-paced, sci-fi adventure. BOOK 1: Alien Hunters -- The skelkrins. Predators from deep space. Creatures of claws, fangs, and malice. Riff and his crew are the Alien Hunters, ragtag mercenaries who travel the galaxy, trapping and removing cosmic critters. They're just galactic pest controllers, not an army. When the skelkrins attack, will the Alien Hunters be the ones hunting aliens . . . or will aliens hunt them? BOOK 2: Alien Sky -- The Singularity. The day the machines gained awareness. They day they turned cruel. The robotic fleet swarms across the galaxy, slaying all in its path. The Alien Hunters--outgunned, outsmarted, outclassed--fly up to meet these killer robots. The battle between life and machine begins. BOOK 3: Alien Shadows -- On a dead planet orbiting a black hole, shadows stir. Some call them ghosts, others merely figments of the imagination. As these astral beings spread across the cosmos,

the Alien Hunters stare into the darkness of deepest space . . . and find terror.
