The Information-literate Historian Jenny L. Presnell 2019 The Information-Literate Historian is the only book specifically designed to teach today's history students how to successfully select and use sources-primary, secondary, and

electronic-to carry out and present their research. Expanded and updated, the third edition is an indispensable reference for historians, students, and other readers doing history research.

Ancient Rome Gr. 4-6 Marci Haines 1999-01-01 This thematic unit will teach students about the powerful civilization of Ancient Rome and the many influences they have had on our modern world. The unit starts off with core teaching lessons to build a base for knowledge, followed by student worksheets that compliment the core lessons. Optional lessons are included to add a degree of flexibility and possible enrichment activities to the lesson. The unit finishes off with a major project that allows students to demonstrate further knowledge of Ancient Rome. This History lesson provides a

teacher and student section with a variety of reading passages, activities, crossword, and answer key to create a well-rounded lesson plan.

Intimate Practices Anne Ruggles Gere 1997 Women's clubs at the turn of the century were numerous, dedicated to a number of issues, and crossed class, religious, and racial lines. Emphasizing the intimacy engendered by shared reading and writing in these groups, Anne Ruggles Gere contends that these literacy practices meant that club members took an active part in reinventing the nation during a period of major change. Gere uses archival material that documents club members' perspectives and activities around such issues as Americanization, womanhood, peace, consumerism, benevolence, taste, and literature and offers a rare depth of insight into the interests and lives of American women from the fin de siècle through the beginning of the roaring twenties. *Intimate Practices* is unique in its exploration of a range of women's clubs -- Mormon, Jewish, white middle-class, African American, and working class -- and paints a vast and colorful multicultural, multifaceted canvas

[New Directions in Digital Textual Studies](#)

Christopher Ohge 2026-01-22 The overlaps between the digital humanities and textual studies-two major scholarly fields which share common interests and methods-still demand further theoretical reflections. This volume brings together an exciting collection of book historians, textual editors, curators, and new media theorists to provide templates for and methodological reflections on how digital textual studies research can be done. Featuring contributions from a variety of early career and experienced scholars and practitioners, this volume uses case studies and methodological provocations to open up digital textual studies, as well as taking a step back to consider the broader theoretical and pedagogical implications they raise. In doing so, it sets the agenda for pragmatic, digital text-based scholarship and

methods, providing useful tools and frameworks for anyone in need of an introduction to textual studies that is grounded in digital research and new media.
