Planning Guide for Power Distribution Plants

Hartmut Kiank 2012-01-27 When planning an industrial power supply plant, the specific requirements of the individual production process are decisive for the design and mode of operation of the network and for the selection and design and ratings of the operational equipment. Since the actual technical risks are often hidden in the profound and complex planning task, planning decisions should be taken after responsible and careful

consideration because of their deep effects on supply quality and energy efficiency. This book is intended for engineers and technicians of the energy industry, industrial companies and planning departments. It provides basic technical network and plant knowledge on planning, installation and operation of reliable and economic industrial networks. In addition, it facilitates training for students and graduates in this field. In an easy and comprehensible way, this book informs about solution competency gained in many years of experience. Moreover, it also offers planning recommendations and knowledge on standards and specifications, the use of which ensures that technical risks are avoided and that production and industrial processes can be carried out efficiently, reliably and with the highest quality.

Charles R. Miller 1999 Illustrated Guide to the NEC represents a dramatic blend of new presentation styles with tried-and-true teaching practices. This text teaches through visualization. Technically accurate, highly detailed illustrations offer insight into Code requirements, and are further enhanced through clearly written, concise blocks of text which can be read very quickly and understood with ease. Information formerly scattered throughout the Code book has been logically gathered and concentrated under the appropriate occupancy: one-family dwellings, multi-family dwellings, illustrated accordingly. After presentation, summaries review the material, while competency tests reinforce what has been learned. Illustrated Guide to the NEC offers a visually pleasing format which stimulates interest and facilitates comprehension, making
