Saunders Infection Control Reference Service Elias Abrutyn 2001 Collected into one source, this text represents the most up-to-date and officially endorsed guidelines of infection control, gathered together and organized for easy reference and use in any healthcare facility. The introductory chapters provide essential information on epidemiology, as well as background concerning the different types of guidelines for control and how they are used. The next section presents broad coverage of infection control and the key components in an infection control program. Following this foundation, the guidelines themselves are presented in sections that focus on the areas of: Facility Size or Location of Service; Site of Infection; Selected Clinical Problems; and Facility-Based Guidelines. Experts in infection control offer a "guide to the guidelines" with their succinct interpretations and critiques of each guideline, providing insight into what works, what doesn't, and why. Where applicable, the guidelines are reproduced at the end of the chapter either in full or in extract format.

Healthcare-Associated Infections in Australia Ramon Z. Shaban 2023-04-01 Infection prevention and control (IPC) is everybody's responsibility. Healthcare-associated Infections in Australia is the first Australian text to address the challenges posed by infectious diseases and healthcare-associated infections (HAIs) for all members of the multidisciplinary healthcare team. Drawing on the expertise of a wide author team, and based on current research, this important and comprehensive text provides a clear pathway for the reader to increase their knowledge and understanding of IPC. The text is designed for both students and practising clinicians, and is presented in two sections - Principles and Practice - for ease of use. With IPC principles and guidelines now embedded into all health-related curricula, and mandated by standards and guidelines across all areas of healthcare, this is a book no health professional should miss. • Includes practice tips, case studies and video-based learning materials providing real-life examples across more than 20 health professions • Suitable for increasing IPC knowledge across all members of the multidisciplinary team. Content is pitched at different levels, with examples ranging from novice to expert • Aligned to the Australian National Infection Control Guidelines 2019 and the NSQHS Standard Preventing and Controlling Healthcare Associated Infections, as well as the nine hospital-acquired complication (HAC) HAIs addressed in specific chapters • Endorsed by the Australian College for Infection Prevention and Control (ACIPC) and the Australian Society for Infectious Diseases (ASID) • Supported by a companion text, *Epidemiology of Healthcare-associated Infections in Australia*, providing data on the epidemiology of healthcare-associated surveillance in Australia. Lewis's Medical-Surgical Nursing 6th Australia and New Zealand Edition Diane Brown 2023-11-28 Lewis's Medical-Surgical Nursing has long been considered a comprehensive and reliable resource for nursing students preparing for their transition into clinical practice. This sixth edition has been fully updated to incorporate the latest research, data, current clinical practice, procedures and guidelines. The text addresses core skills and knowledge that students need to pass their exams and go on to provide expert clinical care. It prepares nurses to assess patients, understand underlying diseases and their signs and symptoms, and go on to plan and deliver care. The text encourages readers to develop their clinical reasoning and problem-solving skills in order to apply theory to their work. This edition has been produced by leading expert nursing academics and clinicians who bring a strengthened focus on inclusion and diversity. - Provides a person-centred holistic approach to patient assessment and care. - Complex concepts are illustrated with figures, tables, summaries and reflections of best practice. - Case studies throughout—based on real-life medical-surgical scenarios—help students to apply theory to real life. - Clinical practice features offer practical guidance for students. - Underpinned by the nursing process framework. Instructor resources on Evolve: - Image collection - PowerPoint slides Student and Instructor resources on Evolve: - Answer guidelines for clinical reasoning questions in case studies - Student case studies -
