Salkind & Frey's Statistics for People Who

(Think They) Hate Statistics Neil J. Salkind

2019-08-02 This Study Guide for introductory statistics courses in health and nursing

departments is designed to accompany Salkind

and Frey's *Statistics for People Who (Think They) Hate Statistics*, Seventh Edition. Extra

exercises; activities; and true/false, multiple choice, and essay questions (with answers to all questions) feature health-specific content to help further student mastery of text concepts. Also

included on the open-access study site are SPSS datafiles containing survey data from health students, which are used for the exercises in the

Study Guide. Data were generated for instruction purposes, and topics cover a range of health-related questions that are pertinent to health students, including the number of hours spent exercising per week, smoking status, number of hours slept per week, number of alcoholic beverages consumed per week, and sources of worry. The database includes 22 variables.

How to Succeed in College (While Really Trying) Jon B. Gould 2024-05-31 After years of preparation and anticipation, many students arrive at college without any real knowledge of the ins and outs of college life. They've been focused on finding the right school and have been carefully guided through the nuances of the admissions process, but too often they have little knowledge about how college will be different from high school or what will be expected of them during that crucial first year and beyond. Written by an award-winning teacher, *How to Succeed in College (While Really Trying)* provides much-needed help to students, offering practical tips and specific study strategies that will equip them to excel in their new environment. Drawing on years of experience teaching at a variety of campuses, from large research universities to small liberal

arts colleges, Jon B. Gould gives readers the lay of the land and demystifies the college experience. In the course of the book, students will learn how to identify the best instructors, how to choose classes and settle on a major, how to develop effective strategies for reading and note taking, and how to write good papers and successfully complete exams. Because much of the college experience takes place outside of the classroom, Gould also advises students on how to effectively manage their cocurricular activities, work obligations, and free time, as well as how to take advantage of the typically untapped resources on every campus. With candid advice and insights from a seasoned insider, this guide will leave students better prepared not only to succeed in college but to enjoy it as well.
