Drawing from the liberal arts and natural sciences and emphasizing psychology's historical dimensions, this gold-standard text shows students how and why psychology is relevant in their lives and to the other disciplines they are studying. The Seventh Edition introduces a new four-part structure that highlights the central issues that motivate psychological research and previews them through thought-provoking introductory essays. Throughout, the part reorganization is reinforced by carefully refined questions and themes, providing a coherent and exciting view of psychology today.

*Anthropology* Raymond Scupin 1992 Anthropology: A Global Perspective introduces readers to the four fields of anthropology. This book integrates historical, biological, archaeological, and global approaches with ethnographic data available from around the world. Information is drawn from both classic and recent research in the field and reflects the current state-of-the-art understanding of social and cultural changes. Anthropology: A Global Perspective demonstrates the diversity of different societies and cultural patterns, but also shows how humans everywhere are fundamentally similar.
