**The TurnAround ToolKit** Lynn Winters 2011 Lynn Winters's and Joan Herman's The Turnaround Toolkit is written for school leaders who are focused on transforming instruction, and who may be working under significant time constraints to reverse declining student achievement or public perceptions of school failure. Based on the evidence that simply implementing "continuous improvement" is not enough to close the achievement gap, The Turnaround Toolkit provides a nine-step formative evaluation program designed to achieve an immediate and consistent focus on improving instruction in order to bolster student achievement. In a straightforward and accessible fashion, Herman and Winters explain three overarching "Turnaround Tasks" that frame these steps and the necessary-and sometimes drastic-actions that must be taken by school leaders as they use data to strategically choose, implement, monitor, and revise school interventions. A dedicated, online "toolkit" offers numerous worksheets and templates that support each stage of the process and help school leaders scaffold the work of educators to put an aggressive turnaround plan into action while a leadership guide at the end of the book provides guidance to turnaround teams and facilitators.

**Contemporary Issues in Curriculum** Allan C. Ornstein 2007 Balanced yet eclectic in its approach, Contemporary Issues in Curriculum reflects the emergent trends in the field of curriculum. The fourth edition of this issues-oriented collection offers 40 articles by the major thinkers in curriculum study. Designed for students in curriculum, instruction, administration, and teacher education, it explores the issues that affect implementation, planning, and evaluation of curriculum at all levels of learning. The editors have organized the collection into six Parts: Curriculum and Philosophy, Curriculum and Teaching, Curriculum and Learning, Curriculum and Instruction, Curriculum and Supervision, and Curriculum and Policy. The readings reflect both traditionally held beliefs and those that are more controversial in nature, providing students and practitioners the opportunity to investigate the breadth of issues that affect curriculum and to access such information in a single source. Readers are encouraged to examine and debate these issues, to formulate their own ideas, and to shape what direction the field of curriculum should take. The fourth edition features 14 new articles, by such leading scholars as John Goodlad, Linda Darling-Hammond, Evans Clinchy, Andrew Gitlin, Stacey Ornstein, Geneva Gay, David Perkins, Harry Wong, Frank Levy, Richard Murnane, Robert Slavin, Allan Odden, Richard Rothstein, Alan Ornstein, and Edward Pajak.
