Historical Outlook 1925
Evaluation of the project "Improving rural livelihoods, environment & green jobs opportunities in Mafraq Governorate in the Hashemite Kingdom of Jordan" Food and Agriculture Organization of the United Nations 2022-10-01 The evaluation of the project "Improving rural livelihoods, environment & green jobs opportunities in Mafraq Governorate in the Hashemite Kingdom of Jordan" (GCP/JOR/017/EC) looked into accountability issues but also sought to document lessons, identify good practices and challenges that can inform the design and implementation of follow-up or similar projects in innovative waste disposal techniques and green jobs in order to achieve positive economic, environmental and

social outcomes. The evaluation considered the multisectoral project to be innovative and relevant to FAO's mandate and work in the country, highlighting the complexities of the food-water-energy nexus. It achieved consensus at the highest levels on the use of biosolids for agricultural purposes through the use of evidence-based research, and at the same time resulted in a reduction in the amount of waste going to the landfill, provided livelihood opportunities for Syrian refugees working in the Material Recovery Facility within Zaatari refugee camp. This project demonstrated well the potential and the practical challenges of integrating the humanitarian-development-peace nexus within FAO's work.

School Portfolio Toolkit

Victoria Bernhardt 2013-10-02

The School Portfolio Toolkit is a book that includes over 300 tools, strategies, templates, and examples for use in building school portfolios and for planning, implementing, and evaluating continuous school improvement. The Toolkit was written to support school personnel with the mechanics of putting together a school portfolio, as well as to offer processes and strategies to move whole school staffs into and through continuous improvement. The tools in the Toolkit will help staffs create, implement, and maintain school portfolios and begin the journey of continuous

improvement. Each chapter deals with one topic related to the school portfolio and comprehensive school improvement, with related documents and tools. The School Portfolio Toolkit book provides templates, tools, examples, and strategies that will help you analyze your school's data, create a vision that is truly shared by the school staff, build a continuous school improvement plan to implement the school vision, formulate a leadership structure to implement the vision, involve parents, community, and business in implementing the vision, embed up to forty different powerful professional development designs into your school plan, evaluate your continuous school improvement work, and create a School Portfolio that will organize and serve as a framework for the continuation of this work
