Composition and Grammar ENC1101

Editorial Board 2022-06-15 We live in a world of words. The way we interact with our fellow humans is very often based on the language that always surrounds us, whether it be the messages we send, the news we read, or the assignments we complete in classes that give us the education intended to lead us to success. What might be the best way to navigate the complexity of language, especially in a first-year

composition course? This book addresses these issues by presenting lessons, examples, and student samples through an approach that is friendly, conversational, and realistic. Created by actual instructors of composition at HCC, this book includes many resources to guide composition students of different skill levels:

- Engaging exercises that anticipate and address the most common errors of writers
- Actual student samples that provide the basis of class discussions and analysis
