Runways & Racers Terry O'Neil 2022-02-07
Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public

road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His

findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many previously unpublished.

Land Rover Discovery James Taylor 2014-04-30
A quarter of a century ago, the Land Rover Discovery defined at a stroke how traditional 4 x 4 all-terrain ability could co-exist with family-estate practicality at an affordable price. Since 1989, the Discovery has gone through several iterations, but its essential qualities have remained unchanged. Practical, capable, and above all completely distinctive - the stepped roof seemed odd at first but now defines the Discovery shape - the Discovery has gone on to become one of Land Rover's best-loved products. *Land Rover Discovery - 25 Years of the Family 4 x 4* looks in detail at the four generations of Discovery, including full specification details and production histories. Topics covered include the design and development of the original Discovery in the late 1980s, and the move into North America; the new 300Tdi engine and R380 gearbox of 1994, and the BMW takeover; Series

II models of 1998-2004, and Land Rover's move from BMW to Ford; Discovery 3/'LR3' - 2004-2009, and the new TDV6 engine, developed by Jaguar; Discovery 4/'LR4' - the all-purpose family luxury car; special editions and derivatives of all four generations of Discovery, including Discoverys for the emergency services and the Camel Trophy and G4 Challenge competition vehicles. Superbly illustrated with 351 colour photographs.
