Touch Screen Tablets

Touching Children's Lives

Joanne Tarasuik 2018-02-28

Touch screen tablets have greatly expanded the technology accessible to preschoolers, toddlers and even infants, given that they do not require the fine motor skills required for using traditional computers. Many parents and educators wish to make evidence-based decisions regarding young children's technology use, yet technological advancements continue to occur faster than researchers can keep up with. Accordingly, despite touch screen tablets entering society more than 5 years ago, we are in the infancy of research

concerning interactive media and children. The topic has gained traction in the past couple of years. For example theoretical papers have discussed how interactive media activities differ from physical toys and passive media (Christakis, 2014), and how educational apps development should utilise the four "pillars" of learning (Hirsh-Pasek et al., 2015). Yet there has been little experimental research published on young children and touch screen use.

Math Practice, Grade 5 Carson-Dellosa Publishing 2014-03-15
Kelley Wingate's Math Practice for fifth grade is designed to help students master basic math skills through focused math practice. Practice pages will be leveled in order to

target each student's individual needs for support. Some pages will provide clear, step-by-step examples. The basic skills covered include multiplication and division of fractions, more advanced division, decimals, volume, and a comprehensive selection of other fifth grade math skills. This well-known series, Kelley Wingate, has been updated to align content to the Common Core State Standards. The 128-page books will provide a strong foundation of basic skills and will offer differentiated practice pages to make sure all students are well prepared to succeed in today's Common Core classroom. The books will include Common Core standards matrices, cut-apart flashcard sections, and award certificates. This series is designed to engage and recognize all learners, at school or at home.
