The UFO Show Illinois State University. University Galleries 2000 To say that UFOs have captured the popular imagination of contemporary America would be an understatement -- while appearances of blinking ellipsoids, whirling orbs, and have been reported throughout history, nowhere has the idea of contact with extraterrestrials taken hold so much as in the postwar United States. The UFO Show presents these phenomena in an unexpected way -- as inspiration and subject matter for contemporary visual art. Creating two- and three-dimensional work relating directly or symbolically to discs, saucers, and other images common to the subject of UFOs, 12 artists -- including Mariko Mori, Ionel Talpazan, Keith Haring, Panamarenko, Oliver Wasow, Claire Jervert, and Paul Laffoley -- confront, each in their own way, a historically ingrained and commercially reinforced locus of millennial obsession. Also included here are several provocative essays on the subject.

The Reliable Field Guide To UFO Science, Media And Data

Sources Stephen J. Dirac 2022-07-29 What makes this UFO book different? The Reliable Field Guide to UFO Science, Media and Data Sources contains an incredible amount of research and source material, including: • What Proof Is Out there? • The Various Hypotheses and Phenomena • Relevant People, Science Experts, Programs and Projects • Research Organizations, Archives, Databases and Government Reports • 20th To Early 21st Century Researchers, Authors and Documentarians Remember, if you have been searching for an organized and holistic collection of data on this fascinating and divisive subject, The Reliable Field Guide to UFO Science, Media and Data Sources is the book you've been searching for. Not another UFO Book? This book is a complete and comprehensive 548 pages of solid resources and knowledge, not just on the subject of UFO's but also a deep dive into the various branches and related concepts such as the Starseed Hypothesis, the Sasquatch/Bigfoot Phenomenon, the Crop Circle Hypothesis, the Men In Black Hypothesis and many more. Is the TRUTH really out there? Exceptional claims require exceptional proofs however and the concept of Unidentified Flying Objects is no longer purely in the realms of science fiction/fantasy. Recently, with the latest improvements in image capturing and analytical technology and the proliferation of media and data sources we have acquired fantastic amounts of knowledge about the universe but still do not know how much more there is to be discovered. As J B S Haldane once said: 'The universe is not only stranger than we imagine, it is stranger than we can imagine.' It is only natural that an intelligent and inquisitive mind, fascinated by anomalous experiences, should eventually turn its attention to the UFO mystery. Whatever your position on UFO's, from total believer to a complete skeptic, it's always better to arm yourself with the most up-to-date information on what we currently know, what we think we know and the people and personalities behind the theories and explanations of the various phenomena. The Reliable Field Guide to UFO Science, Media and Data Sources recognizes that the concept of "UFO" must also incorporate the possibilities of a wider spectrum of "Unidentified Anomalous Phenomena/UAP" and explores these concepts and ideas thoroughly. This book takes a wide, holistic view of the subject and recognizes that the concept of "UFO" must also incorporate the possibilities of a wider spectrum of "Unidentified Anomalous Phenomena/UAP".. USO, Unidentified Submerged Phenomena - Psychic Phenomena - Paranormal - Survival of Consciousness after death - Sasquatch, Bigfoot - Government Black Programs, Conspiracies, USAP/Unacknowledged(waived) Special Access Programs - Breakaway civilization - Time Travel - Unknown Secret Histories of Humankind - Roswell and UFO Crash Retrievals - Government Cover-ups and Disinformation Programs - Remote Viewing - Ancient Cultures - UFO/UAP Hypotheses
