**Ibn Abbas: The Young Scholar of Islam** Dr. Rabea Hadi 2025-04-08

Discover the story of one of the greatest companions of the Prophet Muhammad ﷺ—told in a way kids will love and remember. "Ibn Abbas: The Young Scholar of Islam" is a beautifully written, authentic, and educational Islamic children's book designed to inspire young hearts with the life and legacy of Abdullah ibn Abbas (may Allah be pleased with him), the cousin of the Prophet ﷺ and a leading scholar of the early Muslim community. Perfect for boys and girls ages 8-12, this book features: 12 powerful chapters based on authentic hadith from Sahih al-Bukhari and Muslim, and others Easy-to-read stories written in child-friendly language Life lessons and Islamic values drawn from each event Fun multiple-choice questions (MCQs) after every chapter Three Sahabah Trivia sets to test their learning A full answer key to support parents, teachers, and independent readers Your child will learn about: The du'a the Prophet ﷺ made for Ibn Abbas His pursuit of knowledge from the elders of Badr His understanding of the Qur'an His manners, humility, and deep love for the Prophet ﷺ Whether read aloud at home, used in Islamic studies class, or enjoyed independently, this book offers both spiritual growth and learning through engaging stories and interactive activities. Help your child build love for the companions, love for learning, and love for the Qur'an—one story at a time.

**Close Encounters of the Third Kind** Ray Morton 2007-11 (Applause Books). "Morton has written the definitive book on this innovative movie by Steven Spielberg...Meticulous research of this caliber is not found in other books on Close Encounters. Fans will find Morton's take informative and fascinating." *Library Journal*. Steven Spielberg's 1977 masterpiece used all of the power and magic of cinema to tell a story of man's first meeting with extraterrestrial beings. Renouncing the fear and pessimism of the day, writer/director Spielberg boldly envisioned this as a peaceful, spiritual event full of hope and possibility. This awe-inspiring message made a powerful impact on audiences desperate for something to believe in. The film was a massive box-office hit and revolutionized the movie industry; along with Star Wars, it helped to create the modern blockbuster and ushered in a new era of hi-tech effects. Based on in-depth research and the recollections of many of the film's principal creators, *Close Encounters* is the first book to chronicle the making of this classic film from its inception through its tumultuous production to its many releases in "special" editions. The book features new interviews with star Teri Garr, producer Michael Phillips, photographic effects supervisor Douglas Trumbull, production designer Joe Alves, and several cinematographers, screenwriters, and special-effects legends. John Hill, Jerry Belson, Hal Barwood, and Matthew Robbins; and special effects legends Richard Yuricich, Robert Swarthe, Dennis Muren, Scott Squires, Greg Jein, and Rocco Gioffre.

**Investigating the Impossible** Dr Andreas Lueck 2026-04-02

Investigating the Impossible: biology offers new answers and Insights, co-written by author/investigator Steve Aspin and professional cellular biologist and geneticist Andreas Lück, PhD. The authors deploy the disciplines of cellular biology and genetics for a deep-dive investigation into mysterious cases where scientific data and recovered forensic artifacts exist for laboratory examination and analysis. Four separate, but related, subject areas are examined: 1 - The authenticity and provenance of the tridactyl Nazca mummies recovered in Peru in 2015, and the extensive testing carried out by C14 dating, CT and MRI scans, DNA & PCR sequencing and tissue sampling, detailing these scientific processes for the reader; 2 - The 'alien' hairs recovered from the Peter Khoury encounter in Sydney, Australia in July 1992, subsequently analyzed forensically by APEG and published by Bill Chalker in his 2005 book 'Hair of the Alien'; 3 - The possibility of whether hybridization between species originating from different biospheres as reported in thousands of alien abduction reports over 70 years might even be

biologically possible; and - 4 - How to recognize and identify disinformation and misinformation about these subject areas in the unregulated morass of the online world. The book runs to 75,000 words in length and includes 80x images: photographs, diagrams, charts and illustrations of biological and genetic processes to assist the reader in better understanding the scientific content. The work is available in three formats: - Cloth-bound hardcover with full colour illustrations, ISBN = 978-1-83615-549-2 - Paperback with greyscale images, ISBN = 978-1-83615-548-5 - eBook, ISBN = 978-1-83615-550-8 Three Appendices, a brief Bibliography and detailed reference section of explanatory notes supplement the text. The authors have succeeded in making these often difficult scientific concepts, biological processes and descriptions of testing protocols into an engaging story. Furthermore, in attempting to explain these 'impossible' but provably real phenomena, some of their conclusions lead the reader beyond mainstream scientific consensus to explore realms entertained only by contemporary physics, mathematics and cosmology.

**Out of Phase: Encounter** Ivan Peraza 2024-04-09 This book is a sci-fi novel about the not-so-distant future when humankind lives peacefully under a world government. Humans have built space stations and colonized the Moon and Mars. Mining has been moved to the asteroid belt. I wrote this story from the point of view of the scientists who participated in the discovery. It is not about conflict but about processes and tribulations as the scientists bring their discoveries to the higher-ups.
