Alternative Tourism in Turkey Istvan Egresi 2016-12-08 This book takes inventory of and evaluates the available resources for the development of alternative tourism in Turkey. It examines the role of alternative tourism in future tourism development plans and proposes public policies necessary to assure sustainability. Although tourism started later in Turkey than in the Western Mediterranean countries it has grown very rapidly during the last three decades and today the country ranks among the top ten countries in the world in terms of both arrivals and receipts. However, most of the tourism development has been in the mass tourism sector or the so-called sun-sea-sand tourism. While crucial for the economic development of Turkey, mass tourism, in the absence of proper planning, has happened in a haphazard manner leading to numerous environmental and socio-cultural problems. This book argues that, in order to mitigate these problems, Turkey should encourage the development of alternative forms of tourism.

Tourism in Northern Ireland and its economic impact and benefits Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee 2007-03-15 The Committee's report examines the nature of tourism in Northern Ireland, its impact on and importance for the overall economy, and the effectiveness of measures taken by Government and other relevant agencies to develop, promote and support the marketing of Northern Ireland as a tourist destination. The Committee's recommendations are addressed to the Northern Ireland Office (which took back responsibility for tourism in Northern Ireland when the power-sharing executive was suspended in October 2002) but if a power-sharing executive is re-established then responsibility for tourism will revert to the restored Executive and, accordingly, responsibility for scrutiny of this policy area would revert to the Committees of a restored Assembly. The Committee's report makes 27 recommendations to help Northern Ireland maximise its tourist potential, and concludes that if government recognises the enormous economic impact of tourism, and if private enterprise in co-operation with statutory bodies can develop this recognition into a coherent strategy, there is no reason why the success of tourism in the Republic of Ireland should not be replicated in Northern Ireland to the advantage of the whole island of Ireland and with Northern Ireland itself enjoying an equivalent status to Scotland and Wales as a UK tourist destination.

Science Fiction, Disruption and Tourism Ian Yeoman 2021-12-20 This book examines science fiction's theoretical and ontological backgrounds and how science fiction applies to the future of tourism. It recreates and invents the future of tourism in a creative and disruptive manner, reconceptualising tourism through alternative and quantum leap thinking that go beyond the normative or accepted view of tourism. The chapters, focusing on areas such as disruption, sustainability and technology, draw readers into the unknown future of tourism - a future that may be disruptive, dystopian or utopian. The book brings a new theoretical paradigm to the study of tourism in a post COVID-19 world and can be used to explore, frame and even form the future of tourism. It will capture the imagination and inspire readers to address tourism's challenges of tomorrow.

Resorts and Ports Peter Borsay 2011 Resorts and Ports draws together a group of case-studies which for the first time explore the changing relationships between port and resort activities in a cross-section of European maritime settings over three centuries. The book will interest academics in tourism studies, history, geography and cultural studies, as well as providing essential information and analysis for policy makers in coastal regeneration.
