**The Write Start with Readings** Gayle Feng-Checkett 2005 Clear and straightforward, *The Write Start with Readings: Paragraphs to Essays* is a workbook designed to build writing, revision, and critical thinking skills by getting readers writing from the start. The text models the entire writing process, from prewriting to proofreading, with a model paragraph, and extends the writing process model to writing the introductory, body, and conclusion paragraphs of an essay. It then continues instruction in the various modes of development, teaching readers to write paragraphs and essays in each mode. Provides ample practice in applying the techniques and thinking skills. Also included are sample student and professional essays to encourage critical thinking and discussion. A Writer's Resource appendix provides opportunities for students to work on targeted skills in grammar, punctuation, and ESL concerns. For those interested in improving basic writing skills.
