Tourism and Sustainability Martin Mowforth 2015-12-22 By January 2015 the world's richest 80 people had as much wealth as the poorest 50 per cent of the world's population. It is a global unevenness through which the barriers to immigration of Third World migrants to wealthy First World nations go ever higher, while the barriers to travel in the reverse direction are all but extinct. So how exactly does tourism contribute to narrowing this glaring inequality between the rich and poor? Are ever-expanding tourism markets a smoke-free, socioculturally sensitive form of human industrialisation? Is alternative tourism really a credible lever for reducing global inequality and eliminating poverty? *Tourism and Sustainability* critically

explores the most significant universal geopolitical norms of the last half century - development, globalisation and sustainability - and through the lens of new forms of tourism demonstrates how we can better get to grips with the rapidly changing new global order. The fourth edition has been extensively revised and updated, and benefits from the addition of new material on climate change and tourism. Drawing on a range of examples from across the Third World, Mowforth and Munt expertly illustrate the social, economic and environmental conditions that continue to affect the tourism industry. With the first edition hailed by Geoffrey Wall as 'one of the most significant books produced on tourism [since the turn of the millennium]', *Tourism and Sustainability* remains the essential resource for students of human geography, environmental sciences and studies, politics, development studies, anthropology and business studies as well as tourism itself.

"For those thinking of taking a backpack journey, The Backpacker's Handbook is required reading." —Daily Local News (West Chester, PA) *Twentieth-century Crime and Mystery Writers* Lesley Henderson 1991 **** Cited in Sheehy and BCL3. The foremost reference in the field, completely revised and updated, and now covering about 600 authors, mainly English-language writers whose work appeared during or since the time of Conan Doyle. The entry for each writer consists of a biography, a bibliography, and a signed critical essay. Living authors were invited to add a comment on their work; many of them accepted, and their remarks are both entertaining and enlightening.
