The Companion to Development Studies, 2nd Edition Vandana Desai

2013-01-22 The Companion to Development Studies is an essential one-stop reference for anyone with an interest in development studies. Over 100 international experts have been brought together to present a comprehensive overview of the key theoretical and practical issues dominating contemporary development studies. Building on the success of the first edition, the second edition of the Companion has been thoroughly revised and updated and includes new chapters on a range of topics, including ageing, culture and development, corruption and development and global terrorism. Each chapter summarises current debates and provides guidance for further reading and research. The Companion to Development Studies is indispensable for students of development studies at all levels, from undergraduate to postgraduate and beyond, in departments of development studies, geography, politics, international relations, sociology, social anthropology and economics.

The Making of the West, Combined Version (Volumes I & II) Lynn Hunt

2009 The Making of the West offers a geographically and culturally expansive conception of the West that prepares students to understand today's globalized world. Its integrated chronological narrative makes the impact of historical developments clear by highlighting the interconnections among the politics, people, and ideas of a specific period. From the book's conception, the authors — a team of renowned scholars and expert teachers — have worked to provide a new vision of the West based on cutting-edge scholarship. The narrative — enhanced by a rich and informative art and map program — distills the latest research and consistently treats topics underserved in other books: the West in global perspective, high and popular art and culture, and gender.
