Democracy Redefined Chibli Mallat 2025-10-31 At a time when democratic government is under attack, Chibli Mallat offers a new definition of democracy: the necessary representation in government of citizens as 'members of historically subordinate groups', a concept first opened up by Michel Chiha (1891-1954) during his drafting of the Lebanese Constitution of 1926. The book rests on two main research pillars: the first is a detailed historical and institutional examination of Levantine and Lebanese institutions, drawing on dozens of 19th and 20th century documents, including Chiha's constitutional papers. With unprecedented access to the Chiha Archive, Mallat constructs a world vision of Chiha through his writings and political positions which act as the background to his constitutional contributions.

The second pillar examines the success and failures of an enduring Lebanese Constitution to advance this radically new view of majoritarian democracy, based on extensive research in political science and in constitutional law.

Forss 2021-12 Borrowing from

Our Foremothers offers a panorama of women's struggles through artifacts to establish connections between the generations of women's right activists. In a thorough historical retelling of the women's movement from 1848 to 2017, Amy Helene Forss focuses on items borrowed from our innovative

foremothers, including cartes de visite, clothing, gavel, sculptures, urns, service pins, and torches. Framing the material culture items within each era's campaigns yields a wider understanding of the women's metanarrative. Studded with relics and ninety-nine oral histories from such women as Rosalynn Carter to Pussyhat Project cocreator Krista Suh, this book contributes an important and illuminating analysis necessary for understanding the development of feminism as well as our current moment.

Globalisation and Historiography of National Leaders Joseph Zajda
2016-12-23 Globalisation and Historiography of National Leaders: Symbolic Representations in School Textbooks, the 18th book in the 24-volume book series Globalisation, Comparative Education and Policy Research, explores the interrelationship between ideology, national identity, national history and historical heroes, setting it in a global context. Based on this

focus, the chapters represent hand-picked scholarly research on major discourses in the field of history textbooks and symbolic representations of national heroes, and draw upon recent studies in the areas of globalisation, history textbooks, and national leaders. A number of researchers have written on the importance of teaching national history in order to foster national identity and a sense of belonging to a certain society, state, and people among the younger generation. Some nations prefer to create national heroes out of their political leaders who are still in power, and whose lives and reputation are portrayed as being eminently spotless. Using diverse comparative education paradigms from critical theory, social semiotics, and historical-comparative research, the authors analyse the unpacking of the ideological agenda hidden behind the choice and lionization (or silencing) of the preferred national heroes. They provide an informed critique of

various historical narratives depicting national leaders and national heroes. The book provides an easily accessible, practical yet scholarly source of information on international concerns in the field of globalisation, history education and policy research. Offering an essential sourcebook of ideas for researchers, history educators, practitioners and policymakers in the fields of globalisation and history education, it also provides a timely overview of current changes in politically correct history education narratives in history textbooks.

Cracking Up Paul Lewis 2006-10-02 What do Jon Stewart, Freddy Krueger,

Patch Adams, and George W. Bush have in common? As Paul Lewis shows in *Cracking Up*, they are all among the ranks of joke tellers who aim to do much more than simply amuse. Exploring topics that range from the sadistic mockery of Abu Ghraib prison guards to New Age platitudes about the healing power of laughter, from jokes used to ridicule the possibility of global climate change to the heartwarming performances of hospital clowns, Lewis demonstrates that over the past thirty years American humor has become increasingly purposeful and embattled. Navigating this contentious world of controversial, manipulative, and disturbing laughter, *Cracking Up* argues that the good news about American humor in our time—that it is delightful, relaxing, and distracting—is also the bad news. In a culture that both enjoys and quarrels about jokes, humor expresses our most nurturing and hurtful impulses, informs and misinforms us, and exposes as

well as covers up the shortcomings of our leaders. Wondering what's so funny about a culture determined to laugh at problems it prefers not to face, Lewis reveals connections between such seemingly unrelated jokers as Norman Cousins, Hannibal Lecter, Rush Limbaugh, Garry Trudeau, Jay Leno, Ronald Reagan, Beavis and Butt-Head, and Bill Clinton. The result is a surprising, alarming, and at times hilarious argument that will appeal to anyone interested in the ways humor is changing our cultural and political landscapes.

The Spirit of Independence
Syngman Rhee 2000-10-01
Syngman Rhee (Yi Sûng-man, 1875-1965) is undoubtedly one of the most important figures in modern Korean history. He emerged as the dominant leader in Korea's nationalist struggle against Japan and served as the first president of the Republic of Korea from 1948 through 1960. Rhee's political career as founder and president, however, was not without controversy. While

some hailed him as "the George Washington of Korea," others regarded Rhee as "a little Chiang Kai-shek." This first English translation of Rhee's magnum opus, *The Spirit of Independence* (Tongnip chôngsin), provides readers with an essential key to understanding the breadth and depth of Rhee's thought at a critical juncture in his life and his country's history.
