## **Studies on the Jurchens and the Chin**

**Dynasty** Herbert Franke 2024-12-11 The studies collected here derive in large part from the collaborative Chin history project, to which Professors Chan and Franke have made a massive contribution. The Jurchens lived in northeastern Manchuria as hunters, fishers and farmers, until 1115 when they founded a dynastic state called Chin and went on to conquer northern China. Some of the studies here deal with the way of life of the pre-dynastic Jurchens, others with the law and institutions of the Chin state, and the treaties by which they sought to regulate their conflict with the Sung

dynasty to the south. Taken together, these studies depict the varying mixture of Chinese and native traditions and customs that were adopted, presenting a detailed analysis of this multinational regime in medieval China.

**DigiSense** Dr. Patrick Chin 2016-09-03

DigiSense™ is a concept by Dr. Patrick Chin. It is a practical approach for companies or business to adopt when they embark on the digital journey in innovation or marketing. It started with a series of hard questions that companies / business should ask to identify their gaps and a spiderweb tool to plan and close the gaps. A step by step approach was recommended with key milestones along the way. Please contact support@digisense.org for any further discussions or tools needed for your next digital marketing and innovation success.
