Faith, Reason, and Power in the Early Modern World Gloria K. Fiero 1998 In Volume Four, readers are exposed to the cornerstones of the early modern world, from the age of the Baroque to the art, music, and culture of the eighteenth century. As in previous volumes, the author presents lively discussion accompanied by literary excerpts and examples to illuminate a variety of topics, including Catholicism's global reach, the

birth of modern philosophy, the political theories of Hobbes and Locke, the Enlightenment, and the music of Hayden and Mozart, to name a few.

Re-Viewing the Cold War Patrick M. Morgan 2000-02-28 A cooperative effort by a number of historians and political scientists, this essay collection focuses on the important connection between domestic affairs and foreign relations during the Cold War. The case studies treat phases of both the Soviet and American experiences and involve contributions by two Russian scholars, three Americans, a German, a Swede, and an Israeli. This collection is particularly timely and significant because of the surprising way the Cold War ended, making clear that domestic developments can overthrow even the most potent foreign policies and undermine longstanding assumptions about the primacy of international factors. A provocative essay collection, this will be of interest to diplomatic historians and Soviet Affairs specialists, scholars, and students.

The Encyclopedia of the Cold War Spencer C. Tucker 2007-09-12 A comprehensive five-volume reference on the defining conflict of the second half of the 20th century, covering all aspects of the Cold War as it influenced events around the world. The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude—from a publisher widely acclaimed for its authoritative military and historical references. Under the direction of internationally known military historian Spencer Tucker, ABC-CLIO's *The Encyclopedia of the Cold War: A Political, Social, and Military History* offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe. From

the Second World War to the collapse of the Soviet Union, The Encyclopedia of the Cold War provides authoritative information on all military conflicts, battlefield and surveillance technologies, diplomatic initiatives, important individuals and organizations, national histories, economic developments, societal and cultural events, and more. The nearly 1,300 entries, plus topical essays and an extraordinarily rich documents volume, draw heavily on recently opened Russian, Eastern European, and Chinese archives. The work is a definitive cornerstone reference on one of the most important historical topics of our time.

U.S. News & World Report 1963

Romanticism, Realism, and the Nineteenth-century World Gloria K. Fiero 1998 This text is part of a six-volume work which offers an overview of art, music, literature, history and philosophy. Book 5 explores Romanticism, Realism and the 19th-century world. It looks at the Romantic view of the world, industry and empire and the move towards modernism. The text focuses on the Western tradition, but also includes strong coverage of other cultures, setting the arts of the West in the larger arena of world cultures including India, the East, Africa and Native America. Throughout the chronological narrative there is a focus on universal themes, integrating ideas and issues that relate to the human condition. The coverage of literature, art, music and architecture is integrated into discussions of cultural and political influences, aiming to create a logical presentation of broad subject matter.
