Reading Diagnosis for Teachers Rebecca Barr 2007 Built on a case-study approach to reading diagnosis, this classroom-based resource features strong research, a theoretical foundation and a developmental, constructivist perspective of literacy. In this fourth edition, the authors offer an Instructional Approach that consistently helps the reflective practitioner connect diagnosis with instructional planning. It provides many more cases from actual students and classrooms than other diagnosis books, as well as a strong research and theoretical grounding for practice. The authors introduce readers to early literacy screening, running records, informal reading inventories, miscue analysis, assessment issues related to national and state initiatives and much more.

Enhancing Instructional Problem Solving John C. Begeny 2012-05-25 This book presents a schoolwide model of instructional support designed to make the most of available time, resources, and personnel—one that is also fully compatible with other problem-solving models, such as response to intervention. The authors provide a comprehensive and cohesive framework for linking assessment and

intervention. They show how to interweave evidence-based instruction with targeted professional development and other components that support improved learning outcomes for all K–8 students. Helpful tables describe dozens of research-based assessments and interventions in reading, writing, and math. In a large-size format to facilitate photocopying, the volume includes more than 20 reproducible worksheets and forms. This book is in The Guilford Practical Intervention in the Schools Series, edited by Sandra M. Chafouleas.
