Saucer: Savage Planet Stephen Coonts 2014-04 Full of UFO's, futuristic technology, edge-of-your-seat flying scenes and unforgettable characters, human and otherwise, Stephen Coonts' *Savage Planet* is classic storytelling at its best . . . and pure, unadulterated fun. Aliens are coming! A year after young engineering student Rip Cantrell discovered the first flying saucer buried deep in the sands of the Sahara, another saucer is brought up from the bottom of the Atlantic. The recovery is funded by a pharmaceutical executive who believes that the saucer holds the key to an anti-aging drug formula that space travelers would need to voyage between galaxies. But one of his technicians, Adam Solo, an alien marooned on Earth for a thousand years, steals the saucer, hoping to summon a starship to rescue him. Unfortunately, the stolen saucer has damaged communications gear. Solo goes to Rip Cantrell and his partner, ex-Air Force test pilot Charlotte "Charley" Pine, and Rip's uncle Egg, for help in summoning a starship. Meanwhile, as a terrified world fearful of space invaders approaches meltdown, big pharma moguls and their thugs are hot on the trail of the foursome. In a world turned upside down, it may be the arriving aliens who offer limitless possibilities. Rip and Charley face an incredible decision: Do they dare leave the safety of earth to travel into the great wilderness of the universe?

Didn't You Used to be Depardieu? David I. **Pirate Alley** Stephen Coonts 2013-05-07 Grafton and Carmellini are back and joined by the Navy SEALs to battle terrorists on the high seas in *Pirate Alley*, an action-packed tale by New York Times bestseller Stephen Coonts A luxurious vacation cruise to the exotic locales of the Red Sea and the Gulf of Aden turns into a nightmare for passengers and crew when their ship is suddenly attacked and captured by a band of bloodthirsty Somali pirates. An initial rescue mission ends in failure; the decks are covered in blood. Unless they are paid a ransom of \$200 million dollars within seven days, the pirates threaten to execute all their hostages. But information gleaned from a captured Al Qaeda operative indicates that there is a far more dangerous conspiracy afoot. Once the ransom is paid, Islamic militants intend to swoop in and slaughter the passengers in an orgy of terror, hoping to provoke a massive American military response that will set the Muslim world aflame. Jake Grafton is assigned to negotiate with the brutal pirate chief while his right hand man, Tommy Carmellini, and a team of CIA and Navy SEAL operatives mount an undercover operation to save the hostages and keep the U.S. from being maneuvered into a murderous war.

The Armageddon File Stephen Coonts 2017-11-06 "Stephen Coonts delivers another high-powered, politically-charged thriller that is not to be missed."— The Real Book Spy "[A] headline-inspired thriller with a conservative slant."—Publishers Weekly After one of the most contentious and divisive elections in American history, the new president is finally settling into the West Wing. But when his chief of staff discovers evidence that voting machines in key counties in swing states were tampered with, the whole administration is in danger of unraveling. Did someone steal the election? Are America's enemies involved? Were the tampered-with machines actually rigged to swing the election the other way—and if so and the plot failed, what is the conspirators' backup plan? Jake Grafton and Tommy Carmellini race to solve the mystery of a potentially rigged election before Americans' full faith and credit in our democracy, sovereignty, and rule of law become completely undone.

Liberty's Last Stand Stephen Coonts 2016-06-13 New York Times bestselling author Stephen Coonts delivers another nail-biting thriller starring CIA Director Jake Grafton and his right-hand man, Tommy Carmellini. The president of the United States stands on an outdoor stage, flanked by powerful members of

his administration and party. Television crews are preparing for broadcast. High above the stage, on a nearby rooftop, a decorated sniper adjusts the scope on his rifle. Afterwards, America will never be the same. Jake Grafton and Tommy Carmellini suddenly find themselves on the wrong side of the law when a public act of violence throws the country into chaos just before a presidential election. After martial law is declared and rioting begins, Grafton and Carmellini must risk everything to unravel a massive conspiracy and help a new resistance movement rise up against an unimaginable enemy...

The Art of War: A Jake Grafton Novel Stephen Coonts 2016-02-02 When newly appointed CIA director Jake Grafton hears murmurings of a Chinese plot to attack the US and assassinations of upper level government officials occur, he must investigate the threat and stop China.

Deep Black: Payback Stephen Coonts 2005-10-04 A covert mission in Peru is derailed by a renegade general's devastating threat in the New York Times–bestselling author's acclaimed technothriller series. Ex-Marine sniper Charlie Dean and his top-secret NSA team have their orders: Infiltrate the highest stratum of Peruvian political power to stop a general from acing an election. All Dean has to do is find a way inside an impenetrable bank vault protected by armed guards round the clock—it's all in a day's work for the men and women of Deep Black. But things get complicated when Dean and company discover the general's second plot. The military madman's ruse—a nuclear weapon he claims is in the hands of Marxist guerillas, a bomb that only he can rescue . . . and control. When the general and his plot are exposed, the NSA concludes the greatest threat is over. But in fact, it's only just beginning . . .

**The Sense of Sociability** Lorne Tepperman 2010 Are human beings a species in constant need of firm, aggressive government to save us from ourselves? Or are we fundamentally sociable beings, woven together in a complex array of networks, interdependent and willing to work together? The Sense of Sociability is a modern, highly readable, and often idiosyncratic look at human sociability by one of Canada's top sociologists. Lorne Tepperman explores why we have difficulty getting along, and why in spite of these difficulties we still manage for the most part to live together. Without interference from poor government and other malign influences, he argues, people can work out a great deal of their lives themselves. Tepperman, one of Canada's foremost sociologists, sees it as his job to look at our "unwashed" history to reveal how ordinary people doing ordinary things is the process that makes human history.
