

Economics Chapter 1

Economics is the study of how humans make decisions in the face of scarcity. These can be individual decisions, family decisions, business decisions or societal decisions. In the 20th century, English economist Lionel Robbins defined economics as “the science which studies human behaviour as a relationship between (given) ends and scarce means which have alternative ... Mar 22, 2026 · Economics is a social science that studies how individuals, businesses, governments, and nations make decisions about allocating limited resources. It examines how goods and services ... It has fields bordering on other areas, including economic geography, economic history, public choice, energy economics, cultural economics, family economics and institutional economics. Learn all about the fields of economics,

microeconomics, macroeconomics, finance, and capital markets with hundreds of videos, articles, and practice exercises. Content in this domain covers courses from ... One of the fundamental principles of economics, described by Adam Smith in “The Wealth of Nations”. Work can be undertaken more efficiently if broken up into discrete tasks. Our curriculum includes foundational theory, econometric tools for data analysis and many fields of applied economics. Explore how an economics major can be the foundation to many rewarding careers.
