practicals. Our 'slow practical' approach exemplifies core concepts and provides students with a clear grounding in practical skills, with at least one essential practical for every unit. The three Teacher Handbooks (one for each year) give the teacher all the guidance and detail they need to deliver great science lessons. Their efficacy is further enhanced when used alongside a Boost subscription, which offers supplementary guidance and materials (including our customised Springboard Science two-year course planner) to enrich your science teaching experience. Designed to be used alongside our Knowledge Book and Practice Books. The Knowledge Book is the concise reference book for students, covering the entire curriculum and focusing on the key facts and concepts that they need to know. The three Practice books provide an abundance of questions for independent practice.
