

# Apush Chapter 25 Test Answers

**Hindsight** Arden Wedzler  
2021-02-25 By the year 2110, the world's population driven to self-destruction, thanks to wealthy elitists, corrupt politicians and bankers, and greedy, self-serving progressives. Systemic greed and corruption within the halls of various governments and banks set in motion the engine of humanity's downfall. These organisations have incited wars and conflicts between tribes, religions, and countries, causing horrendous deaths, pain, and suffering for billions of innocent people. Humankind is facing destruction. To combat this, six time travellers from the year 2612 emerge out of stasis with the goal of preventing a nuclear disaster set to occur in 2111. With the advantage of hindsight, they visit six key historical events. They hope to persuade people of influence to make subtle changes to their thinking and

actions. If all six events can be nudged in a slightly different direction, the impending man-made destruction might be averted. Only time will tell whether the time travellers can overcome their two biggest enemies, ego and self-importance, to prevent stupid mistakes from building a critical mass of human horror and causing humankind's extinction. In this science fiction novel, six people from the future arrive in the year 2111 seeking to prevent the destruction of humanity through intervention in key historical events.
