ArchiCAD Bob Martens 2007 ArchiCAD has been on the market since 1984 and has firmly established itself among the available CAD software packages. The number of ArchiCAD users continues to increase and has already exceeded 100.000 by far. Continuous product development has broadened the program's possible spectrum of work applications. Therefore, this book provides comprehensive (background) information and descriptions of the many tools, functions and processes, that explain and document their many practical, research and educational uses. The 2nd edition includes a chapter on what's new in Version 10.

Building Information Modeling Nawari O. Nawari 2015-04-21 This book focuses on how engineers and architects can benefit from new frameworks and technologies by reviewing the building information management (BIM) concept, discussing how BIM will affect education and practice, evaluating current BIM technology, exploring critical issues for best practices in BIM environments, and reviewing fundamentals of architectural and structural analysis under the new framework. The book provides professionals and students with the necessary knowledge and tools to assist them in understanding architectural structures and utilizing BIM to offer practical design solutions.

Advances in Informatics and Computing in Civil and Construction Engineering Ivan Mutis 2018-10-08 This proceedings volume chronicles the papers presented at the 35th CIB W78 2018 Conference: IT in Design, Construction, and Management, held in Chicago, IL, USA, in October 2018. The theme of the conference focused on fostering, encouraging, and promoting research and development in the application of integrated information technology (IT) throughout the life-cycle of the design, construction, and occupancy of buildings and related facilities. The CIB - International Council for Research and Innovation in Building Construction - was established in 1953 as an association whose objectives were to stimulate and facilitate international cooperation and information exchange between governmental research institutes in the building and construction sector, with an emphasis on those institutes engaged in technical fields of research. The conference brought together more than 200 scholars from 40 countries, who presented the innovative concepts and methods featured in this collection of papers.

Proceedings of the 16th International Conference on Concrete Engineering and Technology Warid Wazien Ahmad Zailani 2026-03-21

This book presents the proceedings from the 16th International Conference on Concrete Engineering and Technology (CONCET 2024), held in Shah Alam, Malaysia during 9-12 July 2024. The volume gathers groundbreaking research and innovative solutions from esteemed scholars and researchers worldwide, all focused on advancing concrete as a sustainable, resilient, and adaptable construction material. It also highlights practical applications and future-ready strategies that enhance the durability, efficiency, and environmental responsibility of concrete structures, aligning with the Sustainable Development Goals (SDGs). It

underscores the importance of innovation, which encompasses the exploration, creation, adaptation, and implementation of novel ideas in concrete engineering to foster structures that can adapt to changing conditions and recover rapidly from disturbances. Its content is ideal for engineers, researchers, and construction industry professionals, this book offers a unique blend of academic rigor and practical insights. It serves as an invaluable resource for anyone invested in the future of concrete engineering and sustainable construction practices.
