Clinical Anatomy and Physiology Laboratory Manual for Veterinary Technicians Thomas P. Colville 2009-01-01 Reinforce the A&P principles you've learned in *Clinical Anatomy & Physiology for Veterinary Technicians*, 2nd Edition with this practical laboratory resource. Filled with interactive exercises, step-by-step procedure guidelines, and full-color photos and illustrations, this lab manual is designed to help you understand A&P in relation to your clinical responsibilities as a veterinary technician and apply your knowledge in the laboratory setting. A comprehensive approach builds on the concepts presented in *Clinical Anatomy & Physiology for Veterinary Technicians*, 2nd Edition to strengthen your anatomical and physiological knowledge of all major species. Engaging, clinically oriented activities help you establish proficiency in radiographic identification, microscopy, and other essential skills. Step-by-step dissection guides familiarize you with the dissection process and ensure clinical accuracy. Clinical Application boxes demonstrate the clinical relevance of anatomical and physiological principles and reinforce your understanding. Full-color photographs and illustrations clarify structure and function. A renowned author team lends practical guidance specifically designed for veterinary technicians. A detailed glossary provides quick access to hundreds of key terms and definitions.

Laboratory Manual for Anatomy and Physiology Connie Allen 2002-08-20 The A & P Laboratory Manual by Allen and Harper presents material covered in the 2-semester undergraduate anatomy & physiology laboratory course in a clear and concise way, while maintaining a student-friendly tone. The manual is very interactive and contains activities and experiments that enhance students' ability to both visualize anatomical structures and understand physiological topics. Lab exercises are designed to require students to first apply information they learned and then to critically evaluate it. All lab exercises will be intended to promote group learning and to offer learning experiences for all types of learners (visual, kinesthetic and auditory). The lab exercises are also written so as to be easily adapted for used in distance learning courses.
