Physics for Scientists and Engineers with Modern Physics Raymond A. Serway 2000 This best-selling calculus-based text is recognized for its carefully crafted, logical presentation of the basic concepts and principles of physics. The book is available in single hardcover volumes, 2-volume hardcover sets, and 4- or 5-volume softcover sets. Raymond Serway Robert Beichner, and contributing author John W. Jewett present a strong problem-solving approach that is further enhanced through increased realism in worked examples. Problem-solving strategies and hints allow students to develop a systematic approach to completing homework problems. The outstanding ancillary package includes full multimedia support, online homework, and a content-rich Web site that provides extensive support for instructors and students. The CAPA (Computer-assisted Personalized Approach), WebAssign, and University of Texas homework delivery systems give instructors flexibility in assigning online homework.
