*IJER Vol 7-N3 International Journal of Educational Reform 1998-07-01* The mission of the International Journal of Educational Reform (IJER) is to keep readers up-to-date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer-reviewed scholarly publication that combines authors' voices without regard for the political affiliations perspectives, or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes, but is not limited to, inquiry based and opinion pieces on developments in such areas as policy, administration, curriculum, instruction, law, and research. IJER should thus be of interest to professional educators with decision-making roles and policymakers at all levels turn since it provides a broad-based conversation between and among policymakers, practitioners, and academicians about reform goals, objectives, and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U.S. and the world.

## **Helping Children Realize Their Best Selves**

Ms. Franklin 2025-10-31 Dear Readers: Can we admit the pandemic sucked big-time? Families and educators had to endure social and political madness with children in tow. Pandemic

learning loss can deepen because young minds cannot access high-level content without self-confidence or self-control. My two most enriching expectations are contradictory. I teach children to speak ("You are a voice in this world who deserves to be heard!"). I also teach silence ("Be quiet! Control yourself!"). Children must learn how to assert their ideas and feelings during work and play. Simultaneously, scholars must be capable of stillness in order to self-reflect, ponder new concepts, listen attentively to others, and do their best on high-stakes tests. I have as yet to have a child in my class who did not learn to differentiate the time to speak from the time for silence. Sincerely, Ms. Franklin PS: Not only for teachers and parents, my book is also from one concerned citizen to others who believe American prosperity is contingent upon preparing all children to become productive adults. Section 1: Roadblocks Race Relations in America With an increase in hate crime, we lack the luxury to pretend we live in a postracial society. None of us can truly realize our best selves with either hate in our heart or fear in our soul. Section 2: Pathways Pave the Road to Success We adults must deconstruct barriers that arrest student achievement. We must do better if we want all children to be better. Section 3: Highways Once a Student-Now a Scholar All children can and must learn to distinguish mindsets and behaviors that are prerequisites for success from those that divert discovery of one's career path. Ms. Franklin's Recurrent Advice to Struggling Scholars "Mean and happiness cannot coexist, live together!" "The who you were yesterday is not the who you have to be today! Change! Learn! Grow! Do it for yourself! Do it for our community!"

Principal Tillman has taken all of her classes in exchange for a class of students no one else wants to teach from the Juvenile Detention Center. She receives help as she remembers events from her past. Events, which taught important lessons of life. There is also help coming from a very special relative, Riley, her uncle, now a spirit. She also has a best friend Margo. They are kindred souls placed on the planet to help each other. This book shows the reader a mother who asks God for just a little more time to help her daughter realize her gifts. It shows Flame, one of the students in Dannies class, trying to find her place in the world when her family has evaporated. It shows Dannies friend, Margo, struggling to heal her family from something she did. It shows Dannie, desperately trying to help everyone and make her own peace with her family and her mother. This book is about love, honesty, friendship, telepathy, out-of-body experiences, healing and more. It can help a lot of readers find a special kind of peace. This book is for everyone. If you have ever felt in the midst of personal tragedy you were alone, this book *Believe* could offer you some peace. It creatively uses concepts of, teleporting, out-of-body experience and telepathy to take the reader along on a spiritual journey of one warm southern family.

Raising a Strong Daughter in a Toxic Culture

Meg Meeker 2019-12-31 Parents have never had a tougher job than now. Our culture bombards our daughters with unhealthy role models, misleads them about the consequences of early sexual activity, and even adds to the confusion of adolescences by encouraging them to question their "gender." Meg Meeker has been a pediatrician for more than thirty years, is a mother and a grandmother, and has seen it all. She knows what makes for strong, happy, healthy young women—and what puts our daughters at risk. Combining that experience with her famous common sense, she explains the eleven steps that will help your daughter—whether she's a toddler or a troubled teen—to achieve her full human potential. In this book, you will learn: The four biggest questions every daughter has—and that you must answer Why it's the quality, not the quantity, of your daughter's friends that matters The essential, complementary roles that mothers and fathers play The dangers of social media—and how to help your daughter navigate them What every daughter needs to know about God Why depression is often a "sexually transmitted disease" How to launch your daughter into successful womanhood If you have a daughter, and worry about her future, you need Dr. Meg's advice.

**If You Had to Choose, What Would You Do?**

Sandra Mcleod Humphrey 2009-12-04 Is it wrong to sneak into the movies if your big brother says it's okay? If "everybody" is cheating on the math test, shouldn't you, too? What if telling the truth gets your best friend in trouble? It's never too early for us to begin talking to our children about values and helping them define and clarify their code of moral conduct. This is a great way for them to build self-confidence in their ability to work through everyday problems! The 25 situations presented here and the thought-provoking questions at the end of each scenario have been developed to help you talk to your child about social and moral issues in a natural and nonthreatening way. What an entertaining way to learn vital life skills!
