### **Cardinal Mercier's Philosophical Essays**

Désiré Mercier 2002 Desire Joseph Mercier (1851-1926) was founder and first president of the Institute of Philosophy of the Catholic University of Leuven. After his studies in the classics, philosophy, and theology at the seminary of Mechelen, Mercier was ordained (1874), obtained a licentiate in theology at Leuven (1877), and became professor of philosophy at Mechelen the same year. In 1922 he was commissioned to inaugurate the chair of Thomistic philosophy created at the University of Leuven at the request of Pope Leo XIII. Mercier endeavored to realize the program formulated in the encyclical *Aeterni Patris* (1879): to restore the philosophy of St. Thomas Aquinas, harmonize it with the progress of modern science and thought, and extend its influence to the scientific and social disciplines. On the basis of his initial success, he asked for, and received, the support of the Pope for the creation of an Institute of Philosophy that would provide a complete education in the various philosophical areas. When named president of this institute (1899), Mercier gathered collaborators from among his first students and with their assistance formed an international group of enthusiastic and devoted disciples. The *Revue Neo-scholastique* made the writings of the institute available throughout the scholarly world. On Feb. 7, 1906, Mercier was named archbishop of Mechelen. He took a lively interest in problems of the universal Church and he was also preoccupied with Church Union. (Cf. A.L. Wylleman, 'Mercier, Desire Joseph' in *New Catholic Encyclopedia*, Vol IX. New York, St. Louis, San Francisco, Toronto, London, Sydney, McGraw Hill Book Company, 1967, p. 671-672.) See: *Cardinal Mercier: A Memoir* (David A. Boileau, Peeters, 1996, 417 pages. S 35). Jude P. Dougherty, Dean Emeritus of the School of Philosophy at the Catholic University of America and editor of the *Review of Metaphysics*, had this to say about Fr. Boileau's book: This book should be required reading for anyone who aspires to leadership in Catholic Intellectual

### **Nursing Informatics** Marion J. Ball 2011-01-21

Like the three editions that preceded it, this new edition targets markets in health care practice and educational settings. It addresses practicing nurses and nursing students, together with nursing leadership and nursing faculty. It speaks to nursing informatics specialists and—in a departure from earlier editions of this title—to all nurses, regardless of their specialty, extending its usefulness as a text as noted below. In recognition of the evolving electronic health information environment and of interdisciplinary health care teams, the book is designed to be of interest to members of other health care professions (quality officers, administrators, etc.) as well as health information technology professionals (in health care facilities and in industry). The book will include numerous relevant case studies to illustrate the theories and principles discussed, making it an ideal candidate for use within nursing curricula (both undergraduate and graduate), as well as continuing education and staff development programs. This book honors the format established by the first three editions by including a content array and questions to guide the reader. This 4th edition also includes numerous brief case studies that help to illustrate the theories and practices described within the various chapters. Most of these “mini-cases” are provided by members of professional nursing organizations that comprise the TIGER Initiative. These mini-cases are listed in the front matter and highlighted via formatting throughout the text.
