**Critical Reflections about Students with Special Needs** Jennifer J. Coats 2007 100 vignettes based on real-life classroom challenges are useful for guiding critical reflections on effective teaching and are linked to the CEC Professional Standards for special education teachers. Each vignette provides a brief synopsis of challenges experienced by both novice and experienced teachers as they attempt to implement the information they have learned about effective teaching practices. Using the ten categories in the CEC standards for knowledge and skills, questions for reflections have been developed and carefully referenced for each vignette. These vignettes are designed to be used as a teaching tool for pre-service students or beginning teachers. By providing guided discussions, students are able to brainstorm possible solutions to the challenges presented when teachers attempt to apply general best practice standards in particular classroom situations. Given their brevity, instructors can present these vignettes within a class session and use them to promote active learning. This resource also provides ideas for implementing and utilizing these vignettes to promote active learning within the course structure.

Management and Classroom Management or Applied Behavior Analysis. Behavior Management: Applications for Teachers provides a comprehensive overview of behavior management and classroom management to include introduction, definitions, assessment (functional and formal), strategies and applications. The focus of the strategies presented in this text is positive behavioral support and the prevention of challenging behavior within the classroom setting. Special attention is paid to special populations, such as young children, teens, and students from diverse backgrounds. The text is packed with classroom connection vignettes, follow-up discussion questions per classroom connection, practical applications and examples so that the content is clear to the reader and easily applied to the classroom.

Elementary Classroom Management Gail W. Senter 2002 Historically and contemporarily, politically and literarily, Haiti has long been relegated to the margins of the so-called 'New World.' Marked by exceptionalism, the voices of some of its most important writers have consequently been muted by the geopolitical realities of the nation's fraught history. In *Haiti Unbound*, Kaiama L. Glover offers a close look at the works of three such writers: the Haitian Spiralists Frankétienne, Jean-Claude Fignolé, and René Philoctète. While Spiralism has been acknowledged by scholars and regional writer-intellectuals alike as a crucial contribution to the French-speaking Caribbean literary tradition, the Spiralist ethic-aesthetic not yet been given the sustained attention of a full-length study. Glover's book represents the first effort in any language to consider the works of the three Spiralist authors both individually and collectively, and so fills an astonishingly empty place in the assessment of postcolonial Caribbean aesthetics. Touching on the role and destiny of Haiti in the Americas, *Haiti Unbound* engages with long-standing issues of imperialism and resistance culture in the transatlantic world. Glover's timely project emphatically articulates Haiti's regional and global centrality, combining vital 'big picture' reflections on the field of postcolonial studies with elegant close-reading-based analyses of the philosophical perspective and creative practice of a distinctively Haitian literary phenomenon. Most importantly perhaps, the book advocates for the inclusion of three largely unrecognized voices in the disturbingly fixed roster of writer-intellectuals that have thus far interested theorists of postcolonial (Francophone) literature. Providing insightful and sophisticated blueprints for the reading and teaching of the Spiralists' prose fiction, *Haiti Unbound* will serve as a point of reference for the works of these authors and for the singular socio-political space out of and within which they write.

*Strategies for Addressing Behavior Problems in the Classroom* Mary Margaret Kerr 2002 For undergraduate and graduate courses in behavior management. This practical text provides an in-depth look at specific behaviors and the strategies employed for addressing each behavior. This revision places school-based interventions in the context of positive behavioral support, a view embraced by practitioners and supported by research. It continues to promote collaboration between other agencies and families, along with better coordination of treatment options to create effective services and intervention in education.
