Educational Applications of Natural Language

Processing, Chatbots, and AI Assayed, Suha Khalil 2025-09-16 Advances in natural language processing, conversational AI, and machine learning are transforming how people learn, communicate, and access knowledge. These technologies enable personalized, adaptive, and interactive educational experiences, enhancing engagement and improving learning outcomes for diverse audiences. From language acquisition to professional training, AI-powered tools such as chatbots and tutoring systems can provide scalable, on-demand support that traditional methods cannot match. By integrating these innovations into education,

society can foster more inclusive, efficient, and future-ready learning environments. Educational Applications of Natural Language Processing, Chatbots, and AI explores the integration of natural language processing, conversational AI, and machine learning into educational contexts, highlighting their potential to transform teaching, learning, and assessment. It examines applications ranging from chatbots and tutoring systems to personalized learning and simulations, offering insights into how these technologies can enhance engagement, accessibility, and learner success. Covering topics such as andragogy, deep learning, and personalized learning, this book is an excellent resource for educators, researchers, academicians, administrators, instructional designers, and more.
