Agile Processes in Software Engineering and Extreme Programming Darja Šmite
2024-05-30 This open access book constitutes the proceedings of the 25th International Conference on Agile Software Development, XP 2024, which took place in Bozen-Bolzano, Italy, during June 04-07, 2024. XP is the premier agile software development conference combining research and practice. It is a unique forum where agile researchers, practitioners, thought leaders, coaches, and trainers get together to present and discuss their most recent innovations, research results, experiences, concerns, challenges, and trends. XP conferences provide an informal environment to learn and trigger discussions and welcome both people new to agile and seasoned agile practitioners. This year's

conference was held with the theme "Reflect, Adapt, Envision". The 10 full and 2 short papers included in these proceedings were carefully reviewed and selected from 32 submissions. They were organized in topical sections as follows: agile at scale; value and quality in agile; and people and teams in agile.

Life's Journey To A Total

Transformation Julie Dieball

2018-03-21 Life's Journey to a

Total Transformation A

Christian outlook on

overcoming challenges in all

areas of your life. We all go

through life's journey with

many challenges. Who you are

is how you handle these

challenges. I learned being a

drama queen didn't get me

very far. There are so many

people trying to balance all

areas of their lives. In health,

nutrition, spirituality,

financially, relationships, etc.,

feeling like your life's a circus

juggling everything to keep life

balanced. Finding time for

yourself to think and relax is so

important. The question is, how

can we do that when things are

fast-paced in this day and age?

We all have busy schedules and

can't seem to keep up. When

we are trying to lose weight

and need more energy, there

are so many diets out there,

but what most people don't

realize is that what may work

for one person will not work for

another. So how do you know

which one? If you are tired of going on a roller-coaster diet and losing weight and gaining it back, sometimes more than you started, if you are tired of being tired and need more energy, if life in general is a challenge, then look no further.

As a certified health coach, I am able to help others

overcome challenges in ways

they never thought they could

before and keep a schedule

without feeling like you're a

chicken running around with

your head cut off. I will walk

you through each step to

customize and personalize your

own way of making healthy

habit changes that will help

balance all areas of your life.

You will be able to see yourself

changing your habits, your

schedule, and feel less

stressed, knowing how to look

deep inside to understand

what's slowing you down or

stopping you from achieving

your goals. My prayer is that

God will bless you through this

transformation to become

healthier, happier, and a better

version of yourself.

Model Transformation

Languages with Modular Information Hiding Rentschler, Andreas 2015-04-13 Model transformations, together with models, form the principal artifacts in model-driven software development.

Industrial practitioners report that transformations on larger models quickly get sufficiently large and complex themselves. To alleviate entailed maintenance efforts, this thesis presents a modularity concept with explicit interfaces, complemented by software visualization and clustering techniques. All three approaches are tailored to the specific needs of the transformation domain.

The Learning Advantage

Karen Mantyla 2009-07-01

When times get tough, why is it that the training budget so often gets slashed first? And more important, how can you change this pattern so that your training budget is protected—no matter the economic or business climate? *The Learning Advantage* provides the answers to these questions through a series of case studies designed to help you change your organization's attitude toward learning by helping you make the clear link from learning to your company's bottom line. These case studies offer exemplary models of how to position learning for success by aligning learning strategy with business strategy and by leveraging the power of technology to deliver the best mix of training.

Success stories come from a diverse set of leading companies, including:

Accenture's inspiring roadmap

of how to develop a comprehensive learning infrastructure. The Microsoft Xbox case study, which shows the nexus of strategy, application, and ROI in its breathtaking training challenge to get a global sales and customer service workforce ready for the Xbox 360 launch (includes access to an online, interactive exploration of Xbox 360 launch). Caterpillar University's lessons on how it aligned strategy, technology, and employee development to build an award-winning learning institute with proven bottom-line results. The U.S. Department of Labor's case study, which reveals how this federal agency blended technology with traditional learning for maximum benefit.
