Teach Each Dr. Lily

2025-07-24 A basic economics curriculum appropriate for all levels of education: public, private, homeschooling, and charter. To Parents, the text is intended to be user-friendly with elementary illustrations and featured content for younger students. To Teachers, there is reference to brain theory, instructional strategies and references for extended learning. To Administrators, Dr. Lily taught high school economics for twenty of her thirty years as an educator. Her dissertation on Improving Economics Education in The High School Classroom

inspired the text. She completed five degrees, is a graduate of both Arizona State (Ed.D. 2003; Dual B.S. 1982: Economics/Political Science) and Grand Canyon University (M.A. 1992). She has earned multiple certifications including Career and Technical Education (CTE) in both Business and Early Childhood Education.

Developing Preservice
Problem-Solving Skills through
Case Studies Debra Eckerman
Pitton 2010-07-16 With the
current emphasis on
assessment and data-driven
instruction, pre-service
teachers rarely get a chance to
consider how they will deal
with the dilemmas that may
surface in their future
classrooms. The case studies in
this book enable novice
educators to consider the
possibilities for dealing with
issues, but it also provides a
process for them to hone their
instructional skills, as the book
includes information for
developing questions and
facilitating the case
discussions. In this book, Debra
Eckerman Pitton provides a
bridge from the theoretical to
the practical, using case
studies to engage pre-service
teachers in the analysis of

situations and the problem-
solving they will need to do in
the classroom.
