Final Report of the Board of Inquiry Investigating the Circumstances of an Accident Involving the Air Canada Boeing 767 Aircraft C-GAUN that Effected an Emergency Landing at Gimli, Manitoba on the 23rd Day of July, 1983 George H. Lockwood 1985 In Part I brief particulars of the accident, the crew and the aircraft are set out. The establishment of the Board of Inquiry and the procedure followed by it are detailed. In Part II the factual circumstances of the accident are detailed. Part III looks at the contributory causes of the accident (human factors and error, corporate deficiencies, the implications of a metric aircraft in a non-metric fleet, equipment factors). In Part IV summaries of evidence from other airlines in Canada, the U.S. and Europe is given. Part V sets out aviation safety recommendations, particularly regarding the metric question on fuelling procedures, equipment improvement, improvements to the Minimum Equipment List, corporate structures and training.

Aviation Information Management Barbara G. Kanki 2017-03-02

Operational information management is at a crossroads as it sheds the remaining vestiges of its paper-based processes and moves through the uncharted domain of electronic data processes. The final outcome is not yet in full focus, but real progress has been made in the transition to electronic documents providing the aviation industry with a clear direction. This book looks at a combination of industry initiatives and airline successes that point to the next steps that operators can take as they transition to fully integrated information management systems. Although the route has not been fully identified, it is evident that a key to successful long-term efficient information management is industry-wide cooperation. The chapters are authored by a range of experts in operational information management, and collectively, they outline ways that operators can improve efficiency across flight, ground and maintenance operations. Considerations and recommendations are identified and presented addressing the following priorities: Safety-critical information and procedures Human factors Information security

Operational information standardization. The readership includes: Airline flight operations managers and standards personnel, Airline operating documents and publication specialists, Airline information managers, Commercial pilots, Airline maintenance managers and personnel, Manufacturers and vendors of aviation products, Aviation regulators and policy makers, Aviation researchers and developers of information technologies, and Military technical publications specialists.
