The Well-trained Mind Susan Wise Bauer 2004 This book will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school. Two veteran home educators outline the classical pattern of education: the trivium which organizes learning around the maturing capacity of the child's mind: the elementary school "grammar stage," the middle school "logic stage," and the high school "rhetoric stage." Using the trivium as your model, you'll be able to instruct your child in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Newly revised and updated, *The Well-Trained Mind* includes detailed book lists with complete ordering information; up-to-date listings of resources, publications, and Internet links; and useful contacts.

Christian Home Educators' Curriculum Manual Cathy Duffy 1995 The premiere guide for choosing homeschool curriculum. For beginners or veterans, Cathy helps you wade through the curriculum jungle to choose what's right for each of your children. Reviews of hundreds of books, games, videos, computer programs, parent helps, and much, much more for all subjects.-- Learning styles: Cathy helps you determine each child's learning style, then choose methods and resources that fit each child.-- What your child needs to know -- what is typically taught at each grade level-- Which resources allow your children to work independently, which work best taught one-on-one-- Identifying and dealing with learning disabilities plus a list of consultants for extra help-- Testing: the good and bad of testing, different kinds of tests, where to get them, testing services-- Addresses, phone numbers, faxes, e-mail, and web sites for all publishers and distributors-- How to consolidate your shopping and save shipping costs

Education Outlook 1894

Revolutionizing Education in America Doris Leclerc Ball 2011-08-23 The TOTIL method of education will help your child learn twice as much from kindergarten through high school. Its easy to understand and even easier to implement. TOT stands for time on task, and IL stands for independent learning. By focusing on these two key areas, your child can be home-schooled to become better at math, English, and advanced subjects. He or she will be able to write, research, and think better when its time to enter college. Dr. Doris Leclerc Ball, a retired teacher and psychologist, spent more than forty years perfecting the TOTIL method. In this

guidebook, you'll discover the critical importance of learner-centered education; the obsolete nature of most teachers and how to replace them; the simple curriculum and materials your child needs to succeed; many other insights on how to help your child learn. Your child can master the knowledge and skills necessary to compete at the highest levels for grades, jobs, and more. It begins with a roadmap for Revolutionizing Education in America.
