Homeschooling the Child with Asperger Syndrome Lise Pyles 2004

Provides step-by-step instructions and advice on creating a curriculum for a child with Asperger's syndrome.

Twenty-First-Century Kids, Twenty-First-Century Librarians Virginia A. Walter 2010 Inspired by a new generation of librarians and children, the author reconsiders the legacy of children's services and examines more recent trends and challenges that have grown out of changes in educational philosophy and information technology.

Late, Lost, and Unprepared Joyce Cooper-Kahn 2024-04-30 Does your child have difficulty meeting deadlines, staying organized, or keeping track of important information? Do they tend to forget details? Are they prone to emotional meltdowns? This book will become your go-to, all-inclusive guide to helping children manage issues with these executive functions, a set of related yet distinct mental skills that allow us to stay on target as we work toward our goals. Packed with encouragement, strategies, overviews, case studies, tips, and more, this newly revised

edition offers science-based information explained in accessible, everyday language. You will find down to earth examples and a flexible framework that allows you to think on your feet and adapt the strategies to any child or situation. In addition to providing approaches for helping your child to manage demands in the short run, this book offers strategies for building independent skills for long-term self-management. Covering what you need to know, as well as what you can do, *Late, Lost, and Unprepared* gives parents the support they need to help their child become productive and independent - today and in the future.

Kids, Computers and You Thomas Carpenter 1995 Whether we like it or not, computers are here to stay, and it is up to us as parents to ensure that our children are receiving a healthy introduction to the world of technology at school. Offering a commonsense approach to computer education in Canada, *Kids, Computers & You* allows parents to assess just what is (or isn't) going on in our classrooms and then gives advice on how we can help improve the situation. The authors offer parents with little or no knowledge of computers a comprehensive guide to the use of technology in schools as well as practical suggestions to problems such as antiquate equipment, untrained teachers, inappropriate curriculum and techno-zealots who seem intent on turning primary-grade students into programmers.
