The Routledge Encyclopedia of the Historical Jesus Craig Evans 2014-01-14 This Encyclopedia brings together the vast array of historical research into the reality of the man, the teachings, the acts, and the events ascribed to him that have served as the foundational story of one of the world's central religions. This kind of historiography is not biography. The historical study of the Jesus stories and the transmission of these stories through time have been of seminal importance to historians of religion. Critical historical examination has provided a way for scholars of Christianity for centuries to analyze the roots of legend and religion in a way that allows scholars an escape from the confines of dogma, belief, and theological interpretation. In recent years, historical Jesus studies have opened up important discussions concerning anti-Semitism and early Christianity and the political and ideological filtering of the Jesus story of early Christianity through the Roman empire and beyond. Entries will cover the classical studies that initiated the new historiography, the theoretical discussions about authenticating the historical record, the examination of sources that have led to the western understanding of Jesus' teachings and disseminated myth of the events concerning Jesus' birth and death. Subject areas include: the history of the historical study of the New Testament: major contributors and their works theoretical issues and concepts methodologies and criteria historical genres and rhetorical

styles in the story of Jesus historical and rhetorical context of martyrdom and messianism historical teachings of Jesus teachings within historical context of ethics titles of Jesus historical events in the life of Jesus historical figures in the life of Jesus historical use of Biblical figures referenced in the Gospels places and regions institutions the history of the New Testament within the culture, politics, and law of the Roman Empire.

Polemic in the Book of Hebrews Lloyd Kim 2006-11-01 "The author of Hebrews is arguing that God himself has brought about the fulfillment of these institutions through his Son's priesthood, his once-for-all sacrifice, and the new covenant he inaugurated in the last days. These new institutions are never denied the Jews. In fact, the context of the epistle presumes that these are primarily for the Jews, considering that the author was speaking to a Jewish-Christian community. The author is not arguing for the abandonment by God of the Jewish people, but rather for the abandonment of the shadowy means by which God's people drew near to him. It is here we can speak of a qualified supersessionism. According to the author of Hebrews, the Levitical priesthood, the Mosaic covenant, and the Levitical sacrifices have been superseded by Jesus' priesthood, the new covenant, and Jesus' once-for-all sacrifice. "However, we conclude that the polemical passages in Hebrews do not promote hatred of the Jews, nor do they advocate the destruction of the Jewish people. Rather, the author of Hebrews stresses the fulfillment of specific Jewish institutions for the benefit of the Jews. It is this idea of fulfillment that rules out the charge that the epistle promotes the supersession of the Jewish people. Because of God's great love for his people, he has provided a superior way by which his people can draw near to him." --from the Conclusion

Ancient Texts for New Testament Studies Craig A. Evans 2005 One of the daunting challenges facing the New Testament interpreter is achieving familiarity with the immense corpus of Greco-Roman, Jewish, and pagan primary source materials. From the Paraphrase of Shem to Pesiqta Rabbati, scholars and students alike must have a fundamental understanding of these documents' content,

provenance, and place in NT interpretation. But achieving even an elementary facility with this literature often requires years of experience, or a photographic memory. Evans's dexterous survey—a thoroughly revised and significantly expanded edition of his *Noncanonical Writings and New Testament Interpretation*—amasses the requisite details of date, language, text, translation, and general bibliography. Evans also evaluates the materials' relevance for interpreting the NT. The vast range of literature examined includes the Old Testament apocrypha, the Old Testament pseudepigrapha, the Dead Sea Scrolls, assorted ancient translations of the Old Testament and the Targum paraphrases, Philo and Josephus, the New Testament pseudepigrapha, the early church fathers, various gnostic writings, and more. The NT, and a comparison of Jesus' parables with those of the rabbis will further save the interpreter precious time.

The Apocrypha: A Guide Matthew Goff 2024-08-27 Many readers of scripture, particularly in North America, are not aware that a substantial number of books were removed from their Old Testament. These books, often known collectively as the Apocrypha, were considered scripture for centuries and for millions of Christians today still are. This book is an introduction to the Apocrypha. It discusses ancient and early modern disputes about scripture to provide context for understanding the formation of the textual category "Apocrypha." Each chapter focuses on a specific book, examining its core themes and ideas. The cultural and historical context of the composition of each book is analyzed in its ancient Jewish milieu. This historical context is often elucidated by the Dead Sea Scrolls which have only in recent years been published in full. The later reception of this material in rabbinic Judaism, Christianity, and other modern cultural contexts such as art and literature, is also discussed. This book is designed to be read along with the texts of the Apocrypha themselves, as presented in the New Oxford Annotated Bible. The present volume is written not primarily for scholars but rather for anyone who would like to learn more about the Apocrypha. This book was shaped by an overarching conviction—that people who know next to nothing about the writings covered in

this volume would enjoy reading them. If you have heard something about the books of the Apocrypha and want to know more about them, this book is for you.

Miniature Codices in Early Christianity

Michael J. Kruger 2025-06-07 While there has been renewed scholarly interest in paratextual features of early Christian manuscripts, that interest has rarely extended to the size of manuscripts, particularly the format known as the miniature codex. Such neglect is surprising given that this miniature format was a notable part of early Christian textual culture, emerging as early as the second century and visible well into the seventh century and beyond. So established was this format among Christians during this period, that C.H. Roberts once surmised (incorrectly) that, "The miniature codex would seem to be a Christian invention." Many of these tiny books were elegant, well-crafted, and could contain a surprising number of pages. Currently, we have over 60 such codices, which contain a wide range of Christian literature including New Testament books, patristic and non-canonical writings (e.g., the Didache, Acts of Paul, and apocryphal gospels), and even liturgical-ritual texts. This volume is the first full-length monograph on the phenomenon of the miniature codex, offering a framework for distinguishing miniature codices from other tiny texts (e.g. amulets), exploring their practical and iconic functions, and, perhaps most importantly, assembling a detailed catalogue of all known Christian and Greek miniature codices. This distinctive book format provides an essential window into the textual, literary, and visual culture of early Christianity, shedding fresh light on how and why Christians were considered people of the book.

An Introduction to the New Testament David A. deSilva 2018-09-25 David A. deSilva sets a new standard for New Testament introductions, emphasizing the social and rhetorical contexts of the texts and their authors, highlighting a variety of interpretive approaches to the New Testament, and considering implications of the New Testament for ministry formation.
