BMW Motorcycles Workshop Manual R50

R50S R60 R69S Floyd Clymer 2007-03 A
faithful reproduction of the 1967 Floyd Clymer
publication of the official factory BMW
(Bayerische Motoren Werke) Workshop Manual
for the R50, R50S, R60 and R69S twin cylinder
motorcycles. It also includes the supplement
issued by the factory for the USA versions
R50US, R60US and R69US. --- There are
exhaustive tables of technical data, tolerances
and fits and all of the expected data from a
factory publication for the repair and overhaul of

all major and minor mechanical and electrical
components, making it an invaluable resource
for collectors and restorers of these classic BMW
motorcycles. --- There are 257 illustrations and
each procedure is explained in a step-by-step
method using an appropriate illustration. The
translation from German to English is, at times,
a little quirky but the profuse illustrations make
up for any difficulty in understanding what
needs to be done! --- True to the original, this
reproduction is published in four languages,
English, German, French and Spanish making
this a universal publication and required reading
for any owner. Out-of-print and unavailable for
many years, this book is highly sought after on
the secondary market and we are pleased to be
able to offer this reproduction as a service to all
BMW enthusiasts worldwide.
