Academic Skills Problems Edward S. Shapiro 2023-07-24 "Now in a revised and expanded fifth edition that reflects current research and best practices in direct assessment and intervention, this text addresses a perennial need for school practitioners and practitioners in training. Presented is a comprehensive, problem-solving-based approach for working with K-12 students who are struggling with reading, writing, or mathematics. The book provides a framework for evaluating the instructional environment as well as each student's context and unique learning needs; planning instructional modifications; and monitoring progress. The companion workbook, available separately, contains practice exercises and reproducible forms. Subject areas/key words: school psychology texts, assessing, curriculum-based, evaluations, measurement, measures, testing, observation, reading, mathematics, writing, multi-tiered systems of support, MTSS, RTI, learning disabilities, difficulties, struggling readers, students, handbooks Audience: School psychologists, K-12 school administrators, special educators, and classroom teachers; graduate students and researchers in these fields. Together with the companion workbook, will serve as a text in graduate-level courses on academic assessment and intervention"--

Simplifying Response to Intervention Austin Buffum 2011-10-29 The sequel to Pyramid Response to Intervention advocates that a successful RTI model begins by asking the right questions to create a fundamentally effective learning environment for every student. RTI is not a series of implementation steps, but rather a way of thinking. Understand why bureaucratic, paperwork-heavy, compliance-oriented, test-score-driven approaches fail. Then learn how to create a focused RTI model that works.

Prealgebra Jamie Blair 2002 Jamie Blair, John Tobey, and Jeff Slater are experienced developmental math authors and "active" classroom teachers. They have carefully crafted their texts to support students in this course by staying with them every step of the way. Blair, Tobey and Slater... "With you every step of the way." This 3rd edition of "Prealgebra" is appropriate for a 1-semester course in Prealgebra and was designed to bridge the gap between arithmetic and algebra topics. Intended for those students who are preparing to take an elementary algebra course and have either not studied algebra or have been previously unsuccessful in arithmetic or algebra. This text integrates algebra rules and concepts with those of arithmetic, spiraling the topics and teaching "why," not memorization. Also teaches students the specific

study skills necessary to accommodate their individual learning styles.
