The TOGAF® Standard, 10th Edition - A Pocket Guide Andrew Josey 2022-04-26 This is the official Pocket Guide for the TOGAF® Standard, 10th Edition from The Open Group. Building on over 25 years of development and constant input from The Open Group Architecture Forum's global community of Enterprise Architecture thought leaders, the TOGAF Standard, 10th Edition expands the material available to architecture practitioners to make adoption of best practices easier. With greatly expanded guidance and "how-to" material, it enables organizations to operate in an efficient and effective way across a broad range of use-cases, including Agile enterprises and Digital Transformation. The TOGAF Standard is the most prominent and reliable Enterprise Architecture standard, ensuring consistent standards, methods, and communication among Enterprise Architecture professionals. Those professionals who are fluent in the TOGAF approach enjoy greater industry credibility, job effectiveness, and career

opportunities. The TOGAF approach helps practitioners avoid being locked into proprietary methods, utilize resources more efficiently and effectively, and realize a greater return on investment. This official Pocket Guide provides an overview of the contents and purpose of the TOGAF Standard in a condensed form. As such it does not cover every aspect of the standard in detail, but provides highlights and key reference information. Topics covered include: A high-level introduction to the TOGAF Standard, introducing the modular TOGAF documentation set, the TOGAF Library, and the TOGAF framework Guidance on how to read the standard An introduction to the general how-to information provided in the TOGAF Standard, including guidance for practitioners, and how to use the standard in the Digital Enterprise An overview of guidance to support the establishment of an Enterprise Architecture team An overview of the guidance provided in the TOGAF Standard for specific topic domains, including Security Architecture, Business Architecture, Data/Information Architecture, Agile Methods, and Reference Models and Methods An introduction to the TOGAF Fundamental Content documents provided in the TOGAF Standard, which describe the concepts considered to be universally applicable to the TOGAF framework, including: Key techniques of the ADM cycle Guidelines for adapting the TOGAF ADM for different usage scenarios The Architecture Content Framework Enterprise Architecture Capability and Guidance The TOGAF Architecture Development Method (ADM), including summary phases for each of the ADM phases An overview of ADM deliverables

The TOGAF® Standard, 10th Edition - Business Architecture The
Open Group 2022-04-26 This document is a compilation of TOGAF Series
Guides addressing Business Architecture. It has been developed and
approved by The Open Group and is part of the TOGAF Standard, 10th
Edition. It consists of the following documents: TOGAF® Series Guide:
Business Models This document provides a basis for Enterprise
Architects to understand and utilize business models, which describe the
rationale of how an organization creates, delivers, and captures value. It
covers the concept and purpose of business models and highlights the
Business Model Canvas™ technique. TOGAF® Series Guide: Business
Capabilities, Version 2 This document answers key questions about what
a business capability is, and how it is used to enhance business analysis
and planning. It addresses how to provide the architect with a means to
create a capability map and align it with other Business Architecture
viewpoints in support of business planning processes. TOGAF® Series

Guide: Value Streams Value streams are one of the core elements of a
Business Architecture. This document provides an architected approach
to developing a business value model. It addresses how to identify,
define, model, and map a value stream to other key components of an
enterprise's Business Architecture. TOGAF® Series Guide: Information
Mapping This document describes how to develop an Information Map
that articulates, characterizes, and visually represents information that is
critical to the business. It provides architects with a framework to help
understand what information matters most to a business before
developing or proposing solutions. TOGAF® Series Guide: Organization
Mapping This document shows how organization mapping provides the
organizational context to an Enterprise Architecture. While capability
mapping exposes what a business does and value stream mapping
exposes how it delivers value to specific stakeholders, the organization
map identifies the business units or third parties that possess or use
those capabilities, and which participate in the value streams. TOGAF®
Series Guide: Business Scenarios This document describes the Business
Scenarios technique, which provides a mechanism to fully understand
the requirements of information technology and align it with business
needs. It shows how Business Scenarios can be used to develop
resonating business requirements and how they support and enable the
enterprise to achieve its business objectives.
