Questioned Documents Jay Levinson 2000-09-28

Questioned documents are any documents that may be used as evidence in a trial, ranging from handwritten notes to counterfeit currency to contracts. This concise new handbook is designed specifically to aid lawyers involved in cases that involve

questioned documents (QD) evidence. It explains the basics of document examination and helps litigators improve the way they present document evidence and question witnesses. It also provides references to professional literature and other legal sources, making it easy to find further information when needed. *Questioned Documents: A Lawyer's Handbook* provides analyses applied to many types of investigations and types of documents. It outlines the techniques for determining authenticity, age, ink and paper sources, handwriting identification, equipment used, forgeries, alterations, erasures, and more. In addition to helping the attorneys who must present the QD evidence and ask the questions, this handbook is also an important resource for the expert witnesses who will be asked those questions at trial. and simple tables • Publish documents and spreadsheets online using the new Google Sites After covering registration, file creation and other basics, Google Drive and Docs In 30 Minutes (2nd Edition) zeroes in on the most important time-saving tips and productivity tools. Highlights include: • Converting files between Microsoft Office and Google formats. • Best practices for organizing files in Google Drive. • What to expect with collaboration and sharing. • The pros and cons of Google's mobile apps for Drive, Docs, Sheets, and Slides. • Accessing older versions of files. • How to publish your documents to the Web for colleagues or members of the public to view. • Functions, sorting and filtering in Google Sheets (with examples). • Using Google Forms to gather data. • Google Slides: Is it a suitable alternative to Microsoft PowerPoint? • Working with offline files. • Downloading third-party apps. The tone of Google Drive and Docs In 30 Minutes is friendly

He has written several books in the "In 30 Minutes" series, including Dropbox In 30 Minutes, Twitter In 30 Minutes, and Excel Basics In 30 Minutes. Here's what readers are saying about Google Drive & Docs In 30 Minutes: "I am so glad this was made! I've been using Google Docs for a while now and have been encouraging my teacher colleagues to do so as well to facilitate collaboration. It has become my go-to text book to help new users understand quickly. If you're new to Google Drive or Google Documents, this will help you. If you're experienced, and want something to help those who

come to you with questions, this is a nice tool to help them remember what you show them. I highly recommend it.” “I just got a new position that requires record keeping. Having used Google Docs in the past, I decided to update my knowledge. I googled "Docs for dummies" and this was one of the results. I liked the concept that the title implies - a concise guide that will distill what I need and allow me to complete a task quickly” “A clear and concise explanation of how to navigate your way through google docs.” “Excellent introduction to Google drive. Well researched, easy to read, nicely organized.” *Ethical Documents of the American Institute of Architects...* American Institute of Architects. Washington, D.C. 1921
