Computers Today & Tomorrow □ 4 Manjeet Jauhar, Dorothy Fanthome COMPUTERS TODAY & TOMORROW series consists of eight computer science textbooks for classes 1-8. This series is created to help students master the use of

various kinds of software and IT tools. The books have been designed to keep pace with the latest technologies and the interests of the 21st century learners. The series is based on Windows 7 and MS Office 2007 and adopts an interactive approach to teach various concepts related to Computer Science. The books for classes 1-5 are introductory. They introduce students to the basic features of Windows 7 and MS Office 2007, starting with the history of computers, what are the basic parts of the computer, how to use Tux Paint, WordPad, MS Paint, how to program in LOGO and also give an introduction to the Internet. However, the books for classes 6-8 are for senior students and take a deep dive into the advanced features of Windows 7 and MS Office 2007, including how to do programming in QBasic, HTML and Visual Basic. Students learn to create animations using Flash and Photoshop, and how to communicate using the Internet. The ebook version does not contain CD.

CYBERCODE-5 Tarun Publications 2023-10-15 CYBERCODE is a series of ten books for classes 1st to 10th. Each book is based on Windows 10 and MS Office 2016. The books adhere to the guidelines given by National Curriculum Framework (NCF) 2022. This book has been created with the motive to inculcate technical skills among students. It is vital that the students get to experience and utilise technology in a way that helps in improving their adaptability and enhancing their skills. As the world keeps changing rapidly, we can cope with the pace through technology. Education must not be confined to traditional ways of teaching; hence, we have incorporated certain elements in the book to elevate the teaching-learning process.

Text Book of Computer Applications and Biostatistics Satish B Bhise 2011-01-15 We are very pleased to put forth the first edition of book, 'Textbook of Computer Applications and Biostatistics'. This book is intended to be an introduction to pharmacy students regarding applications of computers and biostatistics to pharmacy. The basic knowledge of computers and their applications is covered in details as it is essential to students in every walk of their lives. The procedures for operating Windows 2003 is discussed here as many colleges still use this version. However our second edition will have the procedures for operating latest versions of Windows. We regret for inconvenience caused to few readers, due to this. The concepts of biostatistics are discussed here with minimum of maths, so as to drive away the maths phobia in pharmacy students. Moreover, most of the statistics can be handled through computers using excel and we have emphasized in every chapter on how to use computers for statistical needs. This will help students to handle the data and infer about their experiments easily. This book is an sincere effort to bring statistical concepts in simple, understandable form so that every student will enjoy to learn them with ease. The learning objectives, summary, multiple choice questions and exercise in all twenty two chapters makes the book more interesting. We acknowledge the help and co-operation extended by various persons in bringing out this book. We are highly indebted to the authors of the various books and articles mentioned in bibliography which became a major source of information for writing this book. We also thank the publishers and designers who graciously worked hard to publish this book in time. Our request to all users of this book is to provide constructive criticism in improving further editions of the book. We sincerely hope that readers will certainly welcome the book.

Exploring Microsoft PowerPoint 2002 Comprehensive Robert T. Grauer 2002 For any course teaching application software using Microsoft Office 2002 applications. This book will appeal to students in a variety of disciplines including liberal arts, business, and the sciences. The Exploring MS Office XP series gives the "when and why" of performing tasks in Office XP; it provides new integrated, real-world practice exercises; it's customizable in the RightPHit Program, certified to the core, and provides expert levels of Microsoft Office XP.

Numerical Simulation of Pulsed Plasma

Thruster Jianjun Wu 2024-10-28 This is an open access book. It is valuable in gaining an understanding of the working mechanism of pulsed plasma thrusters. It facilitates the evaluation of the thruster's working characteristics and propulsive performance, thereby providing a crucial theoretical foundation and reference for the design, development, and engineering application of pulsed plasma thrusters. Additionally, this book significantly contributes to the advancement of space electric propulsion technology. Researchers and engineers in the aerospace propulsion field can greatly benefit from the insights presented within this book.
