*Russia, the Council of Europe and the European
Convention on Human Rights* Ed Bates

2025-02-18 In March 2022, following the
invasion of Ukraine, Russia was expelled from
the Council of Europe after 26 years as a
member. This timely and in-depth analysis
explores Russia's tumultuous relationship with
the Council of Europe and European Court of
Human Rights. It examines Russia's membership
record and the profound impacts of its expulsion

for Europe's human rights system. The authors
provide valuable insights for future policy to
safeguard the integrity of international human
rights institutions. The book fills an important
gap in legal scholarship by exploring the legality
and legitimacy of Russia's membership and
expulsion, and represents a key reference in
understanding the challenge of protecting
human rights in the face of rising
authoritarianism.

Russian Federation International Monetary
Fund. European Dept. 2016-09-22 This paper
evaluates observance of the Basel Core
Principles for Effective Banking Supervision in
the Russian Federation. The legal framework
currently in place provides the Central Bank of
Russia (CBR) with necessary powers and
responsibilities. The CBR may authorize banks,

conduct ongoing supervision, oversee compliance with laws, and undertake corrective action to address safety and soundness. Major new reforms increase many aspects of the CBR's duties and powers, although implementation has not yet been tested in all cases. The Russian licensing regime for banks appears exhaustive. However, the legal regime for major acquisitions was found to be weak.
