The Museum Educator's

Manual Anna Johnson

2017-08-09 The Museum

Educator's Manual addresses

the role museum educators

play in today's museums from

an experience-based

perspective. Seasoned museum

educators author each chapter,

emphasizing key programs

along with case studies that

provide successful examples,

and demonstrate a practical

foundation for the daily

operations of a museum

education department, no

matter how small. The book covers: volunteer and docent management and training; exhibit development; program and event design and implementation; working with families, seniors, and teens; collaborating with schools and other institutions; and funding. This second edition interweaves technology into every aspect of the manual and includes two entirely new chapters, one on Museums - An Educational Resource for Schools and another on Active Learning in Museums. With invaluable checklists, schedules, organizational charts, program examples, and other how-to documents included throughout, The Museum Educator's Manual is a 'must have' book for any museum educator.
