moment. A robust, flavorful cup can clear the mind, cheer the soul, and boost self-confidence. A watery, bitter brew almost guarantees gloom. More than one billion people start their day by drinking a cup of coffee, making it the most popular drink worldwide, after water, and the coffee industry second in the worldwide economy, after oil. However, most people still consider coffee a guilty pleasure. One reason is that many think coffee contains only caffeine and is detrimental to health. In fact, coffee is far more than caffeine-it contains a complex mixture of bioactive compounds that can affect health positively, such as antioxidants, minerals, niacin, and lactones. This book debunks the myths surrounding coffee and proves that coffee in moderation can actually prevent many diseases. Extensive research has been conducted in the last twenty years, but the findings have been relegated to highly specialized journals which are inaccessible to most readers. Now, coffee drinkers rejoice-

this book articulates the massive body of research that's been done in a way that everyone can understand and enjoy! Coffee has been and continues to be an important part of human history-economically, physiologically, and socially. It is the favorite drink of many celebrities and innovators, such as Britney Spears, Halle Berry, Jennifer Jones, Bill Gates, Robin Williams, Kevin Spacey, Jon Stewart, Dave Chapelle, and Madonna, as well as numerous historical figures, like Benjamin Franklin, Napoleon, Lord Byron, Chopin, Bach, Beethoven, Voltaire, Casanova, Goethe, Hemingway, Picasso, Balzac, and Wyatt Earp. There are lots of reasons to drink coffee every day, as the millions of customers who flock to coffeehouses to order a "special," double espresso or latte will attest. Wake up, smell and read all about coffee. 101 Reasons to Drink Coffee without Guilt provides an accessible, engaging, and illuminating exploration of this beloved beverage. Better than

### **Coffee Cakes** William

Reinhart 2016-09-17 As long as I can remember, I've always loved the simple, buttery taste of a crumb topped coffee cake. Nothing, I mean nothing for me goes along better with that first hot cup of coffee in the morning. So what is a coffee cake and why would I want to make one instead of buying it at the local grocery store?

First, what is a coffee cake? To me, a coffee cake was a simple single layer cake with a crumb topping. Fortunately, my wife disagreed and convinced me it was a breakfast cake you had with coffee or tea in the morning. I said, you're right. Each of these scrumptious recipes goes great with your morning beverage of choice and who am I to exclude your favorite flavor or cake style. The next question you may ask is why go to the hassle of making one rather than buying it? That question got answered for me a long time ago when I made my first coffee cake. The aroma that filled our kitchen

was amazing and watching it turn a light golden color through the oven door was magic. I knew right then and there I made the right decision to learn how to bake. If you need more convincing, just look at the ingredients list on the box at your local grocery store and compare that to the simple, short list of ingredients in my recipes. My final argument for baking it yourself is the personal satisfaction, not to mention the compliments, you're guaranteed to receive. Concerned you don't have the skills to make these recipes? Not to worry, I've included three skill ratings to help determine where to start; from rookie bakers with no experience to seasoned bakers that like a challenge. Also, I've included a chapter on "tips and tricks" that I've learned over the years that make baking easier and more successful. You follow my tips and tricks and my straight forward recipe instructions and I guaranteed you'll be rewarded for it, regardless of the recipe you pick. And as a final aid, each

recipe includes a color photo I took of the finished recipe to show you what yours will look like too. Finally, with over 70 coffee cake recipes to pick from, including a gluten-free one, I'm confident that you'll find one that matches your skills and equally important, impresses whoever you decide to share it with. Regardless of your baking experience this Coffee Cake, Comfort Food Recipe Photo Book is for you.

Coffee cakes are no nonsense and so easy to make. It is not like baking a loaf of bread, nor is it as complicated as making a regular cake. Coffee cakes combine effortlessly and bake up into a nice hot sweet treat in a matter very little time. You can go from scratch to eating a slice in less than an hour, and

coffee cakes are best piping hot right out of the oven. Coffee cakes can be as nutritious as they are delicious, if you make them with whole fruits and nuts. You get the benefit of the vitamins contained in the fruits and nuts and this makes this dessert a little easier to reach for over a piece of sugared cake or candy.
