Teaching Disciplinary Literacy Charles W.

Peters 2016-06-01 This practical guide will help pre- and inservice secondary teachers and their instructors and coaches to use videos as a resource to improve teaching. Derived from the authors' research and experience in a teacher preparation program using video records of practice as a core element for reflection and growth, the book focuses on five disciplinary literacy strategies to help teachers identify and develop high-leverage teaching practices across a range of subject areas. The text includes sample lessons, protocols for leading discussions based on videos, and methods for making informed decisions about how to select video-related work. Throughout, the authors provide records of student clinical teaching practice, sample assignment guidelines, and transcripts from video discussion groups. Teacher educators can use this comprehensive resource to develop or revise a curriculum to make it more practice-oriented. "I recommend this volume to its readers as a terrific example of bringing to bear the current state of knowledge across relevant areas to address persistent issues in the development and assessment of programs designed for secondary teacher preparation." —From the Foreword by Karen Wixson, William E. Moran Distinguished Professor in Reading and Literacy, University of North Carolina at Greensboro "Peters, Birdyshaw, and Bacevich have nailed it! Steeped in deep conceptual understandings of teacher learning, the authors detail a powerful, field-tested framework for using video records of practice to implement core literacy practices in secondary subject-matter classrooms. The result is a perfect marriage of pedagogical content knowledge in the disciplines and literacy. An excellent resource for both preservice and inservice teacher education." —Sheila Valencia, professor, Curriculum and Instruction, University of Washington

Standards-Based Lesson Plans for the Busy Elementary School Librarian Joyce Keeling

2017-04-17 This helpful resource provides all-new tested, standard-based lessons accompanied by reproducible handouts and easy-to-follow directions. A new book by Joyce Keeling, an elementary librarian and teacher with more than two decades' experience, *Standards-Based Lesson Plans for the Busy Elementary School Librarian* presents many integrated lesson plans for students in each of the elementary grades, kindergarten through 5th grade. All lessons have been tested and refined in a school setting, and they are specifically written to match the AASL Information Literacy Standards, the McREL Compendium of Standards and Benchmarks, and the Common Core State Standards. In addition to the reproducible lesson plan worksheets, the book offers in-depth discussion of how best to collaborate to teach information literacy within the scope of common elementary school curricula.

The Mathematics Lesson-Planning Handbook, Grades 3-5 Ruth Harbin Miles 2018-07-13 "This book brings together the best of Visible Learning and the teaching of mathematics. The chapters on learning intentions, success criteria, misconceptions, formative evaluation, and knowing thy impact are stunning. Rich in exemplars, grounded in research about practice, and with the right balance about the surface and deep learning in math, it's a great go-to book for all who teach mathematics." —John Hattie, Laureate Professor, Deputy Dean of MGSE, Director of the Melbourne Education Research Institute, Melbourne Graduate School of Education YOU are the architect in the mathematics classroom. When it comes to mathematics lessons, do you sometimes feel overly beholden to the required texts from which you teach? Do you wish you could break the mold, but feel like you get conflicting guidance on the "right" things to do? By the Rubric of Rhythm, They'll Read Cherie A. Ward M.A.T. B.A. 2022-05-03 By the Rubric of Rhythm, They'll Read, offers poetry as an alternative approach for teaching children reading below basic to succeed. It opens doors and new horizons for students placed at risk, while tapping into their multiple intelligences, that standardized tests may have missed. The book discusses the history of public schooling and the reading literacy paradigm, addressing the problem while presenting solutions that stimulate and liberate students' minds. It is the examination into real-world social and interactional contexts while promoting individual agency through oral, written, visual, and the arts while fusing technology at its best. Presenting poetry as the spark that will encourage students to learn as they have fun, dance, and sing, the book takes into account their prior knowledge and the cultural capital they bring. The author introduces her original lesson plans and programs, Lumumba's Playground and Laughing and Learning with Language as vehicles to renegotiate texts for diverse learners to engage, educate and entertain.
