The Alien Iq Test Clifford A. Pickover
1997-05-01 Here is an irresistibly addictive book for anyone whose juices flow when presented with a baffling puzzle. This fiendishly clever book pits readers' wits and deductive powers against a dizzying array of word problems, questions, riddles, and graphic brainteasers, all devised (if you dare to believe) by aliens who have arrived to assess our intelligence in such far-flung areas of the human mind as abstract reasoning, mathematics, religion, morality, and humanity's concepts of beauty.

Aliens in Ancient Egypt Xaviant Haze 2013-10-31
The alien influences behind the rise and fall of Egypt's Golden Age • Explains how Akhenaten was the last pharaoh entrusted with the sacred

and ancient alien knowledge of stargates, free energy, and antigravity technologies • Reveals how the Brotherhood of the Snake, a secret society of reptilian aliens, sought to destroy Akhenaten and suppress the sacred knowledge of the pharaohs • Explores the original purpose of the pyramids--to transmit energy to expand consciousness--and how they were decommissioned after the Great Flood The sophisticated civilization of ancient Egypt arose seemingly overnight, complete with advanced levels of art, agriculture, astronomy, and physics. Then, with the death of Pharaoh Akhenaten, much of this higher knowledge was lost--or suppressed. But evidence of this former Golden Age, the alien visitors behind its rise, and those behind its decline still exists--some of it in plain sight. Examining the purposefully obscured

reign of Akhenaten and Nefertiti, Xavian Haze explains how they represent the last dynasty with access to the sacred knowledge of stargates, free energy, and antigravity technologies, knowledge handed down from an advanced interstellar race in the remote past. He reveals how the reptilian race known as the Shemsu Hor infiltrated the Egyptian priesthood and banking systems and formed the Brotherhood of the Snake--a secret society set on destroying Akhenaten's flourishing kingdom and suppressing the sacred knowledge of the pharaohs. Haze examines the evidence of aliens in ancient Egypt, such as the reptilian beings depicted in the Temple of Hathor and Thutmose III's alien encounter. He shows how Akhenaten and his family are always portrayed with elongated skulls and explores the connection between ancient aliens and Mars, including the Martian materials used in Egyptian monuments. He explains the original purpose of the pyramids--to transmit uplifting energy

throughout the planet to help expand consciousness--and explores how they were decommissioned after the Great Flood of prehistory. He reveals how the original builders of the pyramids foresaw humanity's fall from the Golden Age and strategically encoded these magnificent structures to wake humanity from the depths of the Dark Ages.

The X-files and Literature Sharon R. Yang 2007
The X-Files and Literature: Unweaving the Story, Unraveling the Lie to find the Truth provides an innovative and valuable exploration of the groundbreaking television program. Although much academic work has been devoted to the social, psychological, and spiritual significance of The X-Files, until this collection none has fully addressed the series's (TM) rich adaptation of literature to interrogate our perception, definition, or recounting of the truth. This collection not only unveils new twists and insights into expected connections between The X-Files and Gothic writers or with

its modernist and post-modernist slants on narrative, plot, and characterization. The X-Files and Literature also delves into some unexpected literary sources shaping the series, such as the Arthurian quest, Catholic and Biblical mythology, folkloristics, and James Fenimore Cooper and the vanishing American myths. This collection of essays covers both how The X-Files works with literature (TM) its own constantly morphing definition and portrayal of truth through form and content, as well as how the television program may or may not subvert our own contradictory expectations and distrust of literature (TM)s providing us with enlightenment. As television becomes more and more literary, with shows like Lost and Gilmore Girls sending us off to the bookstore and the library so we might read them more carefully, a book like The X-Files and Literature is welcome indeed. Sharon R. Yang (TM)s diverse collection on one of Nineties (TM) TV (TM)s richest texts finds the truth of the gothic

and the Arthurian and the folkloric, of the postmodern and the metafictional, of Poe, Pynchon, Cooper, Nabokov, and Tennyson, not just a part of it but in the perhaps too complicated narrative of the perpetually frustrated quests of Mulder and Scully. Valuable-in-itself as an intellectual exercise, its real worth may come when we put the book down and return, smarter, better readers, to the primary text. --David Lavery, Co-Editor, Deny All Knowledge: Investigating The X-Files Sharon Yang's X-Files collection deals with an important subject addressed by thoughtful writers. The idea that television can be seen as a branch of literature is certainly sustained by The X-Files, and the contributors to this volume succeed in making the case. Brian Hauser on Fenimore Cooper, Cary Jones on Mary Shelley, Tamy Burnett on Poe, Thomas Argiro on Pynchon, Matthew VanWinkle on Tennyson-these and more explore the connections with The X-Files not only in terms of sources but also themes and

techniques. Both students of television and literature will want to own this book. â "Rhonda V. Wilcox, Ph.D., Professor of English, Gordon College, Barnesville

Conspiracies from Ancient Aliens to the New World Order exposes their deep reach in shaping today's world! Truly an eye-opening read!

Alien Abductions Peter Brookesmith 1998

Since the late 1980s more and more people in the Americas and in Europe have come to believe they have been forcibly abducted by alien beings, taken on board their spacecraft, and subjected to a range of distressing indignities.

Alien Abductions Terry Matheson 1998-11-01

Extraterrestrials regularly abduct humans from Earth, often performing bizarre surgeries and experiments on their subjects, according to the popular and profitable "nonfiction" offered by major publishing houses. Books by John Fuller, Budd Hopkins, David Jacobs, Whitley Strieber, and others have helped shape contemporary belief in alien beings. Science fiction scholar Terry Matheson reveals that the alien abduction literary genre has been a part of our history for decades, but was never taken seriously until

recent times. He explains that traditional aliens were friendly or merely curious quite different from today's ugly, fierce, sinister creatures. Abduction narratives and individual accounts have evolved and changed, and the new aliens seem to symbolize growing fears that our technology is out of control. Actual accounts from abduction victims and evidence collected, Matheson stresses, are often greatly enhanced by the bestselling authors who market the stories, or are directly linked to well-known fantasy and sci-fi films released or broadcast prior to the alleged abductions. Alien Abductions also draws a parallel to the way societal myths are made, and that in these narratives we see a new myth in the making.

“Gripping and addictive—Shepherd has delivered again! A captivating mix of intrigue, deft twists, and complex questions, this is a must-read.”—Amie Kaufman and Meagan Spooner, New York Times bestselling authors of *These Broken Stars* The Maze Runner meets Scott Westerfeld in this new series Kirkus Reviews calls “swoon-worthy and thrilling” about teens held captive in a human zoo by an otherworldly race. From Megan Shepherd, the acclaimed author of the *Madman’s Daughter* trilogy. When Cora Mason wakes in a desert, she doesn’t know where she is or who put her there. As she explores, she finds an impossible mix of environments—tundra next to desert, farm next to jungle, and a strangely empty town cobbled together from different cultures, all watched over by eerie black windows. And she isn’t alone. Four other teenagers have also been taken: a beautiful model, a tattooed smuggler, a secretive genius, and an army brat who seems to know too much about Cora’s past. None of them have a

clue as to what happened, and all of them have secrets. As the unlikely group struggles for leadership, they slowly start to trust each other. But when their mysterious jailer appears—a handsome young guard called Cassian—they realize that their captivity is more terrifying than they could ever imagine: their captors aren’t from Earth. And they have taken the five teenagers for an otherworldly zoo—where the exhibits are humans.

The Evidence for Alien Abductions John Rimmer 1984

Teleparody Angela Hague 2002 Umberto Eco once observed that parody “must never be afraid of going too far. If its aim is true, it simply heralds what others will later produce, unblinking, with impassive and assertive gravity.” In a cautionary attempt to dissuade those who may be tempted, Teleparody fearlessly does go too far in its compilation of reviews of not-yet-existing, but all-too-possible contributions to television studies. In the

tradition of Mad Magazine and the online humor newspaper The Onion, the contributors bring all their critical skills to bear examining the hypothetical scholarship surrounding such TV texts as The Beverly Hillbillies, South Park, the Weather Channel, Mister Rogers and Mister Ed, The Teletubbies, Max Headroom, Sally Field, and reality TV.

UFOs and Abductions David Michael Jacobs 2000 Examining the nature of UFO "evidence", the authors present a primer for scholars, skeptics, and others uneasy about investigating the field of UFOs. The volume also brings together three bestselling authors--David M. Jacobs, Budd Hopkins, and Pulitzer Prize winner John Mack--widely known for their writings on the controversial "alien abduction" phenomenon.
