Teaching English in Middle and Secondary Schools Rhoda J. Maxwell 1997 This methods book advocates a process approach to English instruction which is interactive and developmental one that is learner-centered, rather than teacher-centered.

Classroom Teaching Skills Susan R. Goldman 2006 Designed for beginning teachers, this text introduces the teacher as "reflective decision maker," responsible for planning, implementing, evaluating, and making management decisions in the classroom. Each chapters considers a particular teaching skill—first discussing the theory behind it, and then presenting the reader with practice situations in which knowledge about the skill can be applied and evaluated. The Eighth Edition continues to address the importance of core INTASC standards, and highlights developing issues including the "Digital Divide," the use of personal digital assistants (PDAs) in and outside of the classroom, cooperative learning, and dealing with behavioral issues. Core INTASC standards are addressed in regard to each chapter's objectives. A correlation table between chapter and standard is located on the inside front cover of the text to facilitate documentation of where and how INTASC standards are addressed. New! Marginal notations appear throughout the text to call-out key concepts and assist students with comprehension and review. New! Two-color design helps to organize the information more clearly for students. Chapter 10 focuses on assessment and includes extended discussion of rubrics with additional examples, as well as a new section on electronic portfolios. Chapter 9 has been revised to include a focus on cooperative learning and other strategies brought back from the Sixth Edition of Classroom Teaching Skills. Chapter 8 focuses on issues of behavior management in the classroom, including parental involvement and the role of record-keeping in resolving behavioral issues. Chapter 7: Teaching and Learning with Technology, has been completely updated. Among the topics covered are the "Digital Divide"—using personal digital assistants in and outside of the classroom, micro media and simulation technology, and new productivity tools for teachers. The opening chapters have an increased emphasis on decision making, teaching models, and determining one's own teaching goals.

About the Novel: Hamlet is the classic tale of a king who is murdered by his brother and assumes the crown, and his son who seeks revenge. Hamlet is visited by the ghost of his father, who informs him that his brother Claudius murdered him and married his wife. He tells Hamlet that he must get his revenge by murdering his uncle and taking the throne. Hamlet's strange behavior begins to raise questions from those around him. Not yet convinced of the ghost's claims, Hamlet attempts to prove Claudius' guilt with a play that re-enacts the King's death. Satisfied, Hamlet attempts to receive his revenge. Claudius realizes Hamlet knows the truth and attempts to have him killed. The story climaxes with a tragic end.
