Engaging Students in Academic Literacies María Estela Brisk 2022-12-12 The second edition of this important and practical text provides specific information to guide teachers in planning and carrying out genre writing instruction in English for K-8 students within the content areas. Informed by systemic functional linguistics (SFL)—a framework conducive to instruction that views language as a meaning-making resource—this book guides teachers by presenting concrete ways to teach writing in the language arts, science, and social science curricula. Introducing theory of language that is effective in addressing the writing development of all students, especially multilingual/multicultural groups, the book provides essential scaffolding for teachers to design and implement effective, inclusive curricula while building their own knowledge. Fully up to date, the second edition features new genres appropriate for middle school, examples of student writing, an expanded focus on genre pedagogy, a new chapter on bilingual learners, guidance for teaching in the middle grades, as well as clear steps to prepare genre units based two decades of experience working with whole schools. The chapter units cover distinct genres, including memoirs, historical, genres, fictional narratives, arguments, and more. With ready-to-use tools, the new edition prepares elementary and middle school teachers to meet and adapt to the variable demands of their own educational contexts. Easy to navigate, this teacher-friendly text is an essential resource for courses in academic writing, English education, and multilingual education, and for pre-service and practicing English Language Arts (ELA) teachers who want to expand their teaching abilities and knowledge bases.

Critical Thinking in the Elementary Classroom Erin Shadowens

2023-10-31 Even young students can develop vital critical thinking skills when they have access to rich content, meaningful opportunities to practice, and guided instruction. Critical thinking—evaluating and analyzing data to make informed judgments—is essential in both the classroom and everyday life. Teaching critical thinking skills in the elementary grades is often an afterthought—if it's a thought at all. Veteran primary teacher and instructional leader Erin Shadowens proposes that students of all ages benefit when teachers expand the definition of what is possible by engaging young learners with real challenges and supportive, accessible learning environments. In *Critical Thinking in the Elementary Classroom*, Shadowens * Explores the concept of critical thinking, clarifies misunderstandings, and delves into relevant research. * Introduces the Critical Thinking Framework to help nurture deep thinking in the context of content-focused lessons. * Presents case studies of the framework in action. * Shows how to apply the framework at the unit and lesson levels, addressing common instructional pitfalls along the way. * Describes how a "virtuous cycle" of assessment and feedback promotes academic achievement and critical thinking. * Illustrates how to foster an intellectual community with young learners. Ultimately, this book guides elementary teachers in supporting students to think deeply about rich content, make insightful connections, and address issues in broader, more meaningful ways, both in and outside of school.

Post-Pandemic Trends in Language Studies Dilşah Kalay 2023-10-09 This research collection focuses on language study trends following the COVID-19 pandemic. The book is organized into ten chapters. Chapter I includes teaching beliefs and practices regarding pronunciation. Chapter II examines perfectionism and its relation to second language (L2)

performance. Chapter III develops a self-reported instrument to determine the existence of gelotophobia in the English Language Teaching (ELT) field. Chapter IV discusses the deconstruction of human and nonhuman distinctions in the post-cyberpunk and posthumanist context. Chapter V analyzes "surely" and "certainly" as two modal adverbs expressing conviction. Chapter VI focuses on Polish and Turkish relative clauses to reject the traditional, homogeneous approach to appositive relative clause (ARC) research. Chapter VII examines teacher motivation after the COVID-19 pandemic. Chapter VIII scrutinizes the technological knowledge level of pre-service ELT teachers. Chapter IX describes the cultural orientations of minority groups and the perceived influence of the media. As the final chapter, Chapter X investigates the effect of speaking anxiety on student talking time.
